Results-driven Full-Stack Developer and technical leader with over 7 years of experience designing, developing, and deploying robust web applications and enterprise systems. Proven ability to lead cross-functional teams and manage the full project lifecycle, from concept to delivery. Expertise in PHP, Laravel, & modern JavaScript frameworks, with a strong background in building scalable e-commerce platforms and internal ERP solutions. Seeking to leverage deep technical skills and leadership experience in a challenging software engineering role.

Work History

Jan 2025 –
Present

Sn. Software Engineer
Teqin Valley, Riyadh, SA

- Lead the development and enhancement of internal Enterprise Resource Planning (ERP) systems, improving process automation and operational efficiency.
- Engineered the full-stack architecture for "PixiCard," a secure e-commerce platform for purchasing digital and physical cards, from concept to deployment.
- Spearheaded the integration of the internal EdfaPay payment gateway, ensuring secure and seamless transaction processing for the systems.
- Optimized application performance by refactoring legacy code, improving database queries, and implementing caching, resulting in a 30% reduction in page load times.

Jun 2020 –
Dec 2024

CEO, Sn. Software Engineer
Cyber Fort Technologies, Ernakulam

- Founded and scaled a web development firm, growing the company from a solo venture to a team of 15 professionals including Developers, Designers, and QA Engineers.
- Led the end-to-end project lifecycle for over 20 client projects, from initial requirement gathering and strategic planning to deployment and maintenance.
- Acted as the lead architect and developer on key projects, establishing technical standards and overseeing code quality to ensure the delivery of high-performance solutions.
- Managed all business operations, including client acquisition, contract negotiation, and strategic partnerships, achieving consistent year-over-year revenue growth

Aug 2017 –
May 2020

Junior Web Developer
Aries E - Solutions Pvt. Ltd., Kochi, India

- Developed and maintained client websites and web applications primarily using Core PHP, vanilla JavaScript, HTML, and CSS.
- Contributed to back-end development projects using the CodeIgniter framework, assisting senior developers in building features and resolving bugs.
- Collaborated with the design team to translate UI/UX wireframes into responsive and interactive front-end components.
- Gained foundational experience in database management, API integration, and version control (Git) in a fast-paced agency environment

Education

July 2021

Bachelor of Computer Applications

Indira Gandhi National Open University
