EXPERIENCE

Senior Software Engineer

FreshToHome

📅 11/2021 - Present

- Led backend development using PHP and Magento for high-traffic e-commerce systems
- Developed Node.js microservices for internal integrations and background processing
- Built Vue.js components for admin dashboards and internal tools
- Integrated third-party APIs including payment gateways and logistics services
- Deployed scalable solutions on AWS and implemented CI/CD pipelines
- Mentored junior developers and conducted code reviews

Senior PHP Developer

CodeLattice

📅 02/2019 - 11/2021

- Developed ERP and e-commerce systems using Laravel and CodeIgniter
- Implemented Vue.js-based UI modules integrated with REST APIs
- Optimized application performance using SQL tuning, Redis, and Memcached
- Led development teams following Agile/Scrum practices

PHP Developer

Limenz Technologies Pvt Ltd

📅 06/2017 - 02/2019

- Built custom PHP applications using Laravel and CodeIgniter
- Developed REST APIs and integrated third-party services
- Designed responsive and mobile-first web interfaces

Developer

Pixbit Solutions

📅 02/2016 - 05/2017

- Developed and maintained web applications using PHP and JavaScript
- Worked on cross-browser compatibility and performance optimization

SUMMARY

Senior Software Engineer with 8+ years of experience in full-stack development, specializing in PHP, Laravel, Magento, Node.js, and Vue.js. Proven expertise in building scalable APIs, microservices, and high-performance e-commerce platforms. Strong background in AWS cloud deployment, CI/CD pipelines, and database optimization. Experienced in Agile environments, team leadership, and code reviews

KEY ACHIEVEMENTS

Enhanced Application Performance

Increased system performance by 30% with optimized SQL queries and caching strategies.

Optimized API Performance

Reduced API response time by 40% through efficient Node.js microservice design.

Developed Team Expertise

Mentored 10+ junior developers, enhancing team skills and productivity.

EDUCATION

Bachelor of Technology • Computer Science & Engineering

KMCT College of Engineering
