- management
- Continuous learning

About Me

Experienced Software Developer with a demonstrated track record of delivering high-quality web and software solutions. With over 6 years of hands-on experience, I bring expertise in both front-end and back-end development, and I thrive in fast-paced, collaborative environments. As a problem solver and a quick learner, I am committed to delivering exceptional results and continuously improving my coding skills.

Professional Experience

Software Developer | Chris Johnson Business IT Solutions, Kochi

Nov 2024 – August 2025

- Developed and maintained full-stack web applications using React and Laravel.
- Collaborated with international teams to implement scalable and secure business IT solutions.
- Integrated RESTful APIs and third-party services to enhance application functionality.
- Optimized application performance and conducted debugging to ensure system reliability.
- Followed Agile methodologies and participated in sprint planning and retrospectives.
- Utilized Git for version control.

Full Stack Developer | Competitive Cracker, Kakkand

Mar 2022 – Oct 2024

- Develops web applications using Angular, Laravel and PHP.
- Collaborates with cross functional teams to design, develop and deploy web applications.
- Works on the entire software development lifecycle including requirement gathering, design, development, testing and deployment.
- Implements responsive and mobile friendly design using CSS and HTML.
- Utilizes version control systems such as Git to manage the codebase.
- Debugs and troubleshoot issues that arise during development and testing.
- Participates in code reviews to ensure quality and adherence to coding standards.
- Contributes to the continuous improvement of the company's web development process and practices.
