Professional Summary

Seasoned Senior Full Stack Developer and Laravel Expert with 4+ years of experience delivering scalable web applications across healthcare, media, and enterprise sectors. Specialized in Laravel, React (JSX), PostgreSQL, and RESTful APIs, with proven success in performance optimization and system architecture. Notably reduced ClearTax API response times by 40% for bulk invoice uploads across high-traffic media apps like Tonton and Wowtix. Open to relocation and employer sponsorship in Australia (Subclass 482/186) or New Zealand (Accredited Employer Work Visa).

Professional Experience

Ajanta Pharma - Senior Full Stack Developer (Mumbai, India) | May 2025 - Present

- Architecting and developing enterprise-grade internal tools and dashboards using Laravel, React (JSX), and Oracle DB
- Collaborating with product managers and QA teams in Agile sprints to deliver pharma tech modules
- Using Trello for sprint planning, progress tracking, and cross-team coordination
- Developing APIs and backend services integrated with Oracle databases and reporting tools
- Maintaining CI/CD pipelines with GitHub Actions and mentoring junior developers

Revmedia Group - Full Stack Developer (Remote, Malaysia) | Sep 2024 - Apr 2025

- Led front-end architecture using Vue.js and Vuex for high-traffic media platforms (Tonton, Wowtix)
- Developed and integrated APIs for ClearTax tax submission workflows, reducing bulk invoice upload response times by 40%
- Built backend logic and queues using Laravel, optimizing performance at scale
- Built CI/CD pipelines using GitHub Actions and deployed apps via Docker and GCP
- Used Jira to manage tasks, track bugs, and collaborate during Agile sprints

Tiatech Health Technologies - Full Stack Developer (Thrissur, India) | Nov 2021 - Aug 2024

- Engineered modules for Tianumr healthcare ERP software using Laravel and PostgreSQL
- Integrated payment gateways and real-time messaging systems
- Used Trello to plan weekly development tasks and coordinate feature rollouts
- Enhanced performance by 30% through server-side and query-level optimization
- Led weekly code reviews and mentored junior developers

Data4sports - PHP Web Developer (Trivandrum, India) | Sep 2020 - Oct 2021

- Built ERP modules and dashboards using Laravel and MySQL
- Managed end-to-end WordPress development and deployment
- Collaborated with stakeholders to align tech execution with business goals

Key Projects

- Tianumr Hospital ERP System (Tiatech): Developed modular, secure, and scalable platform integrated with EHR and telemedicine
- News Media Portal (Revmedia): Scaled Vue.js components for high concurrency and optimized API response times
- ClearTax Tax API Integration (Revmedia): Optimized Laravel-based API layer for secure and fast bulk invoice submission; achieved 40% reduction in response times for apps like Tonton and Wowtix
- Pharma Analytics Dashboard (Ajanta Pharma): Developed with Oracle DB, role-based access, and integrated charts using React

Technical Skills

Languages: PHP (Laravel), JavaScript (React, Vue.js, jQuery), HTML/CSS, Python (basic)

Databases: Oracle, PostgreSQL, MySQL, Google BigQuery, SQL Server

Tools: Git, GitHub Actions, Docker, GCP (basic), REST APIs, CI/CD, PHPUnit

Project Management: Trello, Jira

Practices: Agile/Scrum, Code Review, Performance Optimization, TDD

Education

Master of Computer Applications - St. Joseph's College of Engineering and Technology, Pala, India (2016 - 2019)

BSc in Mathematics - BVM Holy Cross College, Cherpunkal, India (2012 - 2015)

Certifications

Learn SQL using PostgreSQL - Udemy

Git and GitHub Masterclass - Udemy

Laravel Advanced Techniques - Pluralsight
