PROFESSIONAL SUMMARY

Detail-oriented and results-driven Software Engineer with 7 years of experience in designing, developing, and maintaining web applications. Proficient in PHP frameworks such as Laravel and experienced in building scalable backend solutions using Node.js. Skilled in RESTful API development and integration, database design, and microservices architecture. Proven ability to deliver secure and high-performance applications while adhering to scalability, maintainability, and clean coding best practices. Adept at collaborating with cross-functional teams to deliver high-quality, business-driven solutions.

WORK EXPERIENCE

Software Engineer - 2Base Technologies | Kochi

Jul 2022 - Apr 2026

- Enhanced core features of the SkoolBeep platform, ensuring a seamless and reliable user experience.
- Developed RESTful APIs using Laravel and Node.js to enable secure, scalable, and high-performance communication between frontend applications and backend services.
- Built scalable backend systems and optimized application performance through efficient database design and query optimization.
- Utilized PHP frameworks, including Laravel, to develop scalable and maintainable backend systems.
- Collaborated with product managers, designers, and QA engineers to deliver high-quality features within project timelines.
- Managed code repositories using Git with structured branching strategies.

Software Engineer - Sping Labs Technologies | Thodupuzha

Jan 2019 - Jul 2022

- Implemented dynamic web applications using the PHP Laravel framework, contributing to the successful delivery of multiple client projects and business solutions.
 - Integrated third-party APIs to optimize website functionality and streamline data exchange processes.
 - Optimized MySQL database schemas and queries to improve system reliability and response times.
-

EDUCATION

Master of Computer Applications (MCA)

MG University | Dec 2018

Bachelor of Computer Applications (BCA)

MG University | Mar 2016

SKILLS

- Languages: JavaScript, PHP
- Frontend: HTML, CSS
- Backend: Node.js, Express.js, Laravel
- Database: MySQL
- Tools: Git, Postman
