Projects Profile:

1. <https://nexpart.com/>

<https://admin.nexpart.com/admin>

Technologies: Laravel, Lumen, Elasticsearch, REST API, jQuery, HTML, CSS

Description: Nexpart enables service dealers, car dealerships, fleet, national accounts, government agencies and distributors to order quickly and easily over the internet from their part suppliers. Use your existing computer and Internet connection to enter part numbers, use the on-line catalog or stock check your distributor. One click places your order, parts are pulled and delivered as normal.

In the admin section we can find distributor from Manage Distributors section and then can check all related information from eBay Inventory section. In eBay Inventory section we have Dashboard, Manage Inventory, Manage Inventory by List, Download Inventory and Order, eBay Business Policies, eBay Promoted Listings, eBay Link Preferences, Kit Maintenance and many more section through which we can manage inventory section.

Team Size: 8

Duration: 3.7 years

2. <https://www.iconnectx.com>

Technologies: Zend Framework, MySQL, REST API, jQuery, HTML, CSS

Description: iConnectX is the industry leading social platform providing the tools that nonprofits need to succeed in their fundraising, as well as an environment for professionals to connect with their peers, Executives, and Industry Experts. Along with enabling to nonprofits with tools for advocacy, auctions, event ticketing and fundraising, iConnectX provides access to an environment or community of "giving-minded" professionals.

Registered nonprofits can engage the professionals for participation or even sponsorship of their events. The iConnectX secret "fund builder" is the iConnectX iBridge, which is a patent pending technology that helps professionals donate, buy and share time. Professionals can connect with peers, industry experts or executives for a fee that is donated directly to a favorite nonprofit. iConnectX is available through web and mobile applications to enable nonprofits to reach their audience at work, home, or on the go.

Team Size: 6

Duration: 1.6 years

3. <https://www.asergis.com/>

Technologies: Zend Framework, MySQL, REST API, jQuery, HTML, CSS

Description: In the **Audio-Conferencing** product a registered company can create and manage below three types of conferences:

Reservation-Based Conferencing: which allows you to plan and manage your conference calls. It is ideal for regular or pre-planned meetings.

Recurring Conferencing: is ideal for clients who wish to hold meetings at the same time every week as scheduling can be set to be repeated automatically.

Reservation-Less Conferencing: offers you flexibility and is available at a moment's notice. It is perfect for frequent, spontaneous, or urgent meetings.

Each of our conferencing services can be set up via the AMP: You will be given a dial-in number together with a PIN code, both of which can be distributed to your participants via the AMP.

1- Participants will dial-in at the scheduled time and will be prompted for their PIN.

2- As soon as all participants have joined, your meeting can begin.

In the Admin and Asergis User section we have many features like CRM section, Pre-Account section, Provisioning section, Customer List section, Invoicing section, DID section, Manage Conference section, Manage CDR section etc.

Team Size: 6

Duration: 2.3 years

4. <https://store.mapsofindia.com/>

<https://store.mapsofworld.com/>

Technologies: OpenCart, MySQL, jQuery, HTML, CSS

Description: In this project we have large collection of digital and printed maps. Our online store features a large variety of world maps and India maps, in different sizes and formats, and covers places all over the globe. From students to scientists, our maps serve a wide range of loyal and satisfied customers. Buy wall maps for office or home, print digital map files, shop for travel maps and world atlas, purchase globes for classroom, and prepare a presentation using our flash maps. Our store features an extensive repository of country, continent, city, and zip code maps for business and educational needs.

Team Size: 3

Duration: 8 months

5. <http://absolutecigars.com/>
