

Kavi Bharathi S

+91 - 9787125869 | kavitech.k@gmail.com | [Linkedin](#)

Full Stack Web Developer with 4 years of experience developing customer-facing web applications, internal business tools, and CMS-based websites using React, JavaScript, PHP, Laravel, WordPress, MySQL, and NoSQL databases. Experienced in front-end development, responsive design, cross-browser compatibility, REST API integrations, and workflow automation systems. Skilled in debugging, documentation, version control using Git, SEO optimization, and deploying applications using modern development practices on Linux and AWS environments.

TECH STACK

- **Frontend Development:** React, JavaScript, HTML5, CSS3, Bootstrap, jQuery, AJAX, Responsive Design, Cross-Browser Compatibility
 - **Backend Development:** PHP, Laravel, Zend Framework, REST APIs, Web Services, Microservices
 - **Databases:** MySQL, PostgreSQL, NoSQL (MongoDB)
 - **CMS & Platforms:** WordPress, Custom CMS Systems, Product Data Management
 - **API & Integration:** REST APIs, Web Services, XML, JSON, Webhooks, Payment Gateway Integration, ERP Integration
 - **Authentication:** JWT, OAuth
 - **Software Engineering:** OOP, MVC Architecture, Data Structures, Algorithms, System Design, Multi-Tenant Architecture
 - **Tools:** Git, Jira, Bitbucket, Postman, SVN
 - **Methodologies:** Agile, SDLC
 - **Deployment & Servers:** Linux, Apache, Nginx, AWS (EC2, S3)
 - **Other Skills:** Data Processing, Scalability, Security, Documentation, System Integration
-

PROJECT HIGHLIGHTS

- Developed customer-facing web applications using React, JavaScript, PHP, and REST APIs.
- Built internal business tools and workflow automation systems to improve operational efficiency and data capture.
- Developed and maintained CMS-based websites and WordPress platforms for content and product management.
- Implemented responsive web design and ensured cross-browser compatibility across multiple devices and browsers.
- Integrated REST APIs, Webservices, and third-party services including payment gateways and external platforms.

- Worked with MySQL, PostgreSQL, and NoSQL databases for application data storage and performance optimization.
- Optimized website performance, SEO, and page load speed for better user experience.
- Deployed and maintained applications on Linux servers and AWS EC2 and used AWS S3 for file storage and backups.
- Used Git and SVN for version control and worked in the Agile SDLC environment.

PROFESSIONAL EXPERIENCE

App Innovation Technologies

2023–Present

PHP Developer

- Developed customer-facing web applications using React, JavaScript, PHP, and REST APIs.
 - Built internal business tools and workflow automation systems to improve workflow efficiency and data management.
 - Developed frontend interfaces using React, JavaScript, HTML, CSS, Bootstrap, and jQuery.
 - Managed CMS platforms and handled product data management and content updates.
 - Worked on WordPress website maintenance, theme customization, and plugin integration.
 - Implemented responsive design and ensured cross-browser compatibility across multiple browsers and devices.
 - Integrated REST APIs and third-party services including payment gateways and external platforms.
 - Worked with MySQL, PostgreSQL, and NoSQL databases for application data management and performance optimization.
 - Used Git for version control and collaborated with cross-functional teams in Agile development environment.
 - Deployed and maintained applications on Linux servers and AWS EC2 and used AWS S3 for file storage and backups.
 - Improved website performance, SEO optimization, and page load speed.
-

MagoFOG Software Development and Network Solutions

2022 – 2023

Junior PHP Developer

- Assisted in full stack web application development using PHP, JavaScript, HTML, CSS, and MySQL.
- Developed frontend interfaces and responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- Worked on REST API integrations and database management.
- Assisted in WordPress website updates, CMS content management, and product data updates.
- Participated in debugging, testing, deployment, and maintenance of web applications.
- Used Git for version control and collaborated with team members in the Agile development environment.

EDUCATION

Bachelor of Technology (Information Technology) 2018 — 2022

Sri Rama Krishna Engineering College, Coimbatore (2019 - 2022) Completed the degree with 7.2 CGPA in B.Tech IT

Intermediate 2017 — 2018

St.Xavier's Higher Secondary School, Tirunelveli
Completed the intermediate with 61.2%

High School 2015 — 2016

St.Xavier's Higher Secondary School, Tirunelveli
Completed the High school with 84.6%

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication Skills
- Adaptability & Continuous Learning
- Time Management
- Self-Motivated & Quick Learner
- Attention to Detail
- Ability to Work in Agile Environment

CAREER OBJECTIVE

To work as a Full Stack Web Developer where I can develop customer-facing web applications, internal business tools, and CMS/WordPress platforms using React, JavaScript, PHP, and modern web technologies, while improving workflow automation, website performance, and user experience.
