

Kuldeep Raj

Kuldeep Raj Team Lead | Full Stack Developer | AngularJS | Node.js | Laravel | CodeIgniter | Zend | React.js | Python | SOLID Architecture | Socket.io | CometChat

Sahibzada Ajit Singh Nagar, Mohali, Punjab

kuldeep.raj48@yahoo.in

+91 96468 39831

PROFESSIONAL PROFILE

Senior Full Stack Developer & Technical Leader with 15+ years of experience designing scalable, high-performance systems and leading engineering teams. Proven track record of team leadership, system optimization, and delivering business-critical solutions across web and cloud platforms.

KEY HIGHLIGHTS

- 15+ years of experience in full-stack development and system architecture
- Led teams of 15+ developers across multiple projects
- Delivered 20+ scalable applications across web and mobile platforms
- Strong expertise in performance optimization and cloud deployment (AWS)

TECHNICAL EXPERTISE (13+ Years in Core Stack)

Frontend: AngularJS, ReactJS, JavaScript (ES6+), jQuery

Backend: Node.js, Express.js, Laravel, CodeIgniter, Zend Framework, PHP, Core PHP, Django (Python)

Databases: SQL Server, MySQL, MongoDB

Legacy Database Experience: SQL Server 2005

Version Control / CI/CD: Git, GitHub, GitLab, Jenkins, CI/CD Pipelines

Real-Time Communication: Socket.io, CometChat

Cloud & Infrastructure: AWS (EC2, S3), Render

Architecture & Practices: SOLID Principles, Clean Code, TDD, ATDD

Application & Web Servers: XAMPP, WAMP

Leadership: Team Management, Agile, Code Reviews

Architecture: Microservices, REST APIs, System Design, Scalable Systems

PROFESSIONAL FOCUS

Focused on designing scalable, high-performance systems, mentoring development teams, and maintaining high standards in coding and architecture. Strong emphasis on delivering impactful, user-centric solutions with efficient and optimized performance.

PROFESSIONAL SUMMARY

- Full Stack Development Experience: 13+ years of hands-on experience with AngularJS, ReactJS, Node.js, Laravel, CodeIgniter, Zend, PHP, Core PHP, Python (Django), jQuery, MongoDB, MySQL, AWS S3, ElectronJS, CometChat, Socket.io
- Total Experience: 15+ years, including 2 years of earlier ASP.NET experience (not currently working in ASP.NET) and 6 months of industrial training

Willing to relocate to: Chandigarh, Chandigarh - Haryana, Haryana - Pune, Maharashtra

Work Experience

Full Stack Developer and Team Lead

Jploft Solutions Pvt.Ltd.-Rajasthan

Full-time

January 2026 to February 2026

Technologies: Laravel, NodeJS, Reactjs, MySQL, MongoDB, jQuery

Team Lead / Sr. Software Developer

RANSAP PRIVATE LIMITED-Mohali, Punjab

Full-time

February 2023 to October 2025

Project's Details | Team Size: 13 | My Role: Team Leader/Sr. Developer:

Technologies: Laravel, MySQL, jQuery, ElectronJS, NodeJS, Express.js, Bootstrap, APIs (iOS/Android)

Projects:

<https://www.ezeetel.com>

| <https://portal.ezee.tel>

| <https://soladvizers.com>

| <https://www.advizuru.com>

| <https://www.ppnsolutions.com>

| <https://bookingsuite.ezeetel.com>

Desktop app:

Technologies: Electron JS, JavaScript, ReactJS, NodeJS, Express.js, HTML, and CSS

Project: <https://www.ezeetel.com/downloads>

Sr. Software Developer/Team Lead

SIGEA SOLUTIONS Pvt-Punjab

Full-time

December 2021 to December 2022

SCO 43,44,45, 46, Sirhind

• Patiala Rd, DLF Colony, Patiala as Sr. Software Developer/Team Lead

Project's Details (12 Members):

My Role: Team Leader/Sr. Developer

Implement all functionality as per all users in frontend and so many websites etc.

Technologies: Core PHP, MySQL, jQuery, APIs (iOS/Android), Cron Job, Location Update, AWS, S3, etc.

SSM College Dinanage

Projects / Papers Presented

Full-Stack Application Development Using JavaScript Technologies

Authored a technical publication explaining end-to-end application development using modern JavaScript frameworks, including frontend development, backend API design, database integration, and deployment best practices.

Designing Secure and Scalable REST APIs

Published an article focused on backend development using Node.js, covering RESTful API standards, authentication strategies, role-based access control, and database optimization techniques.

Building Real-Time Web Applications Using Modern Technologies

Wrote a technical publication on implementing real-time features such as live chat and notifications using backend services, WebSockets, and scalable system architecture.

Clean Code and Software Architecture Best Practices

Published content discussing clean code principles, SOLID design patterns, code reviews, and best practices for building maintainable and high-quality software systems in team environments
