Experience & Projects

Netaxis IT solutions — Full stack developer

Chennai — Nov 2023 – Jan 2026

Product URL: <https://hrmify.com>

- Designed and developed a complete HRM and Payroll web application using Laravel, PHP, AngularJS, MySQL, HTML, CSS, and JavaScript.
- Implemented employee lifecycle modules including onboarding, attendance, leave management, departments, roles, and permissions.
- Built payroll processing system with salary structures, allowances, deductions, tax calculations, payslip generation, and monthly payroll reports.
- Developed secure and scalable RESTful APIs in Laravel to support AngularJS frontend integration.
- Optimized database schema and complex SQL queries, improving payroll calculation and report generation.
- Implemented role-based access control (RBAC) to ensure secure access for HR, Admin, and Employee users.
- Integrated authentication, authorization, and session management for multi-company and multi-user environments.
- Designed responsive UI components using AngularJS, improving usability across desktop and mobile devices.
- Integrated multiple payment gateways including Stripe, PayPal, and Razorpay into web applications using secure API-based implementations..
- Implemented merchant account configuration using Merchant ID, API Key, and Secret Key for payment authentication and authorization.
- Developed payment workflows for subscriptions, one-time payments, and service-based transactions.
- Handled payment lifecycle events including payment initiation, success, failure, refunds, and transaction status tracking.
- Handled deployment, bug fixes, and production support, ensuring high availability and smooth system operations.

Key Modules – HRMify (HRM and Payroll System)

- Employee Management
- Attendance and Leave Management

- Payroll Processing and Payslips
- Tax and Salary Structure Management
- Role and Permission Management
- Reports and Analytics Dashboard

Achievements

- Reduced manual HR and payroll effort by 40 to 50 percent through automation.
- Improved payroll accuracy and compliance with configurable salary rules and tax logic.
- Successfully delivered a production-ready SaaS HRM product used by multiple organizations.
