ksmahesh3@gmail.com

Kottayam

Professional Summary

- 15 years of experience in software engineering with expertise in **full-stack development** and **technical leadership**, working effectively as both an independent contributor and a collaborative team member.
- Currently leading the Indian development team at ENKI Technologies (Spain) as a Team / Technical Lead, delivering IoT-enabled smart farming solutions using microservices and micro frontend architecture.
- Implemented scalable systems with Node.js, Svelte, Angular, React, Docker, and Firebase, integrating real-time IoT data flows.
- Architected and developed hybrid mobile applications using Angular and Ionic (Capacitor JS) for field and farm operations.
- Former Senior Software Engineer at WBpro LLC (USA), where I implemented and led LMS platform development for top clients like Crawford & Company.
- Experienced in backend technologies such as Node.js, Strapi, and Laravel, and frontend frameworks including Angular, React, Svelte, and Vue, with strong command over CI/CD practices. Proficient in Firebase services such as Firestore, Functions, and Realtime Database.
- Adept at building cloud-hosted, real-time systems using Firebase, Google Pub/Sub, WebSockets, and scalable architecture practices.
- Strong cross-functional collaboration, project ownership, and team mentoring capabilities.

SKILL SET

Programming Languages: • Javascript(Expert) • PHP (Expert) • Python (Intermediate) • C++ (Intermediate) Architecture: • Microservice • Micro frontend Version Control: • Gitlab • GitBucket	FE Frameworks: • Angular (Expert) • Typescript(Expert) • React JS (Advanced) • Svelte JS (Expert) • ionic • Vue JS (Intermediate) • Next JS (Intermediate) • Nest JS (beginner) API • Rest API	BE Frameworks: • Node JS (Expert) • Strapi (Expert) • Express JS (Advanced) • Laravel (Expert) • CodeIgniter (Expert) Mobile: • Ionic (Expert) • CapacitorJS (Expert) • Hybrid development
Databases: • MySQL (Expert) • Firestore (Expert) • PostgreSQL (Advanced) • MongoDB (Intermediate)	Cloud: • Firebase (Expert) • AWS-EC2 (Advanced) • DigitalOcean • Droplets(Advanced)	IOT: • Nod-Red(Advanced) • Home Assistant(Advanced) • Arduino ide (Beginner) • ESP Home (Beginner)

WORK EXPERIENCE

Team/Technical Lead - From September 2022 to Present

ENKI Technologies S.L. (Spain) – via Geesesquads Software Services Pvt Ltd, Kochi (Partner Company)

- Spearheaded the establishment of ENKITEK's dedicated **Indian development team** from the ground up; successfully built and led a team of **8 engineers**.
- Led the **end-to-end technical development** of modern web applications and enterprise platforms focused on **IoT-integrated smart farming**.
- Delivered the **Farm Management System (FMS)** – an advanced IoT-enabled platform for recipe-based material planning and farm operations.
- Designed and implemented the architecture using **microservices** and **micro frontend patterns** to ensure scalable, maintainable systems.
- Contributed as a **Full Stack Developer and Technical Lead**, working on technologies such as:
 - **Backend:** Node.js, Strapi, Firebase Functions
 - **Frontend:** Angular, ReactJS, Svelte, Bootstrap, D3.js
 - **Mobile:** Ionic (Capacitor JS)
 - **IoT Integration:** Node-RED, Home Assistant, Google Pub/Sub
 - **Infrastructure:** Firebase Hosting, Firebase Firestore, Docker, WebSocket, Nginx

Senior Software Engineer, WBpro LLC (USA) – Kochi, India Office, June 2010 – August 2022

- Joined as one of the first engineers in WBpro's India operations and contributed significantly to scaling the team to over 40 professionals during a 12-year tenure.
- Involved in the technical implementation of enterprise-level Learning Management Systems (LMS) and compliance solutions for clients like Crawford & Company in the US.
- Worked closely with product owners and client teams to translate business requirements into scalable, high-performance software solutions.
- Gained extensive experience in full-stack development across multiple LMS modules, including SCORM/AICC course handling, user enrollment systems, and admin tools.
- Progressed through various roles, consistently contributing to key project deliveries and mentoring junior developers.

Contributed to full stack development using:

- **Backend:** PHP (Custom MVC Framework, Laravel Lumen), Node Js, MySQL
- **Frontend:** Angular (v1 to 13), React Js, jQuery, Bootstrap, Tailwind CSS, SCSS
- **Other Technologies:** REST APIs, Git, Agile methodology, cross-platform browser support

MAJOR PROJECTS

FMS (Farm Management System)

ENKITEK FMS is SAAS based application with an IoT-integrated platform designed to automate farm operations in controlled agriculture environments such as hydroponics and vertical farming. It enables real-time monitoring, material traceability, automated resource planning, and structured process workflows using recipe-based cultivation strategies.

The **ENKITEK FMS Mobile App** is a smart farming platform designed specifically for farm operators to carry out their daily tasks based on recipe configurations. Using built-in QR code scanning, operators can easily trace trays and perform the tasks assigned to them

Role: Worked as the primary developer and technical lead, helping to build the product from start to finish. Shared key technical decisions with the CTO, managed development across frontend, backend, and mobile, and worked closely with other teams to deliver the project on time.

Technologies:

Node.js, Svelte, WebSocket, Ionic (Capacitor JS), Node-RED, Home Assistant, Strapi, Firebase Functions, Firebase Firestore, Firebase Hosting, ReactJS, Angular, Google Pub/Sub, D3.js

Architecture:

Backend: Microservices with Docker, Front end: Micro frontend with svelte js

KMC OnDemand Educational Services - Crawford

- SaaS-Based Learning Management System for Insurance Training. A scalable Learning Management System (LMS) designed specifically for the insurance sector. The platform supports hierarchical user roles, allowing managers and supervisors to oversee the learning progress of their subordinates. It provides comprehensive tools to manage all learning materials associated with a course, including support for SCORM-compliant content, ensuring standardized and interactive learning experiences
- Handles SCORM and AICC courses, user enrollment, company management, and course credits.
- Technologies: PHP MVC, MySQL, Angular 1, jQuery, Bootstrap, CSS3
- Role: Full Stack Developer / Team Lead
- URL: [KMC OnDemand - Educational Services](#)

KMC OnDemand Compliance Genie

- State Credit Management System for Licensing. A regulatory compliance tool designed to manage educational credits required for state-based professional licensing. The system tracks and validates both resident and non-resident license requirements across various U.S. states and Canadian provinces. It

ensures accurate approval workflows, credit allocation, and adherence to state-specific rules for continuing education and license renewals.

- Technologies: PHP (Custom MVC framework), MySQL, Angular 1, jQuery, Bootstrap, CSS3
- Role: Full Stack Developer

KMC OnDemand GCMS

- SCORM Course Authoring and Publishing Tool for KMC. A specialized tool for creating SCORM-compliant courses tailored for the KMC learning platform. It allows administrators to design and assemble structured learning materials, associate them with individual courses, and apply custom company branding. Once finalized, both the courses and their corresponding materials can be seamlessly published to the KMC system.
- Technologies: PHP Laravel Lumen, MySQL, Angular 9, Bootstrap, SCSS
- Role: Full Stack Developer

CommQ

- A productivity platform that seamlessly integrates task tracking with meeting management. Users can schedule meetings, record meeting minutes, and effortlessly convert discussion points into actionable tasks. The system also allows checking team members' availability through integrated calendar views, ensuring better collaboration and scheduling efficiency.
- Role: Frontend Lead
- Technologies: .NET, MSSQL, Angular 13, Angular Material, SCSS

EDUCATION

- Master of Science Information Technology (2007 - 2009), Amrita Vishwa Vidyapeetham , Mysore.
- B.Sc - Mathematics (2004-2007), St. Thomas College Pala. M.G University
