PROFILE

As an experienced backend developer, I specialize in Laravel and thrive in dynamic, growth-oriented environments. Committed to designing scalable and secure web applications, my focus is on delivering top-notch solutions, improving performance, and collaborating effectively with diverse teams. Seeking a dynamic setting that fosters continuous learning and professional growth, I aim to contribute meaningfully to elevate technical standards.

EXPERIENCE

- IMIT PARK - International Media and Information Technology Park**
Backend Developer
MARCH 2023 - PRESENT
 - Develop and execute comprehensive marketing strategies and campaigns that align with the company's goals and objectives.
 - Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
 - Monitor brand consistency across marketing channels and materials.
- Star Innovation**
InternShip - Php Developer
2020 - 2021
 - Contributed to innovative projects during an internship at Star Innovation Company.
 - Played a key role in conceptualizing and developing a dynamic platform for new and used car transactions.
 - Designed a seamless system for users to generate options for buying cars, including full payment or EMI.
 - Implemented an admin interface for EMI viewing and acceptance.
 - Successfully enhanced user experience by enabling the sale of used cars on the platform.

PROJECTS

- Red Cross - (Mobile App)**
Backend Developer
Mar 2023 - July 2023
 - Developed and maintained backend for Red Cross mobile app using Laravel and MySQL.
 - Designed an easy-to-use Admin Panel for efficient content management.
 - Integrated Firebase for real-time push notifications, improving user communication.
 - Implemented RESTful APIs for seamless data exchange between the app and server.
 - Collaborated with frontend and mobile app teams to ensure system cohesion.
 - Technologies Used: Laravel, MySQL, Firebase, RESTful APIs.
- Navasakalp (Mobile App)**
Backend Developer
July 2023 - Dec 2023
 - Crafted efficient Admin Panel for seamless campaign management and transaction monitoring.
 - Implemented RESTful APIs to optimize communication between mobile app and server.
 - Integrated Firebase for instant push notifications for donors and recipients.
 - Collaborated with stakeholders, gathered requirements, conducted testing, and iteratively improved features.
- Zab Events - (Website)**
Backend Developer
Jnu 2024 - Mar 2024
 - Event Creation: User-friendly interface for clients to effortlessly create and manage events.
 - Staff Management: Comprehensive system to search and manage staff members.
 - Client Management: Features for overseeing client interactions and requirements.
 - Messaging System: Integrated messaging for efficient communication with selected staff members.
 - Admin Dashboard: Designed admin interface for a complete view of staff profiles, client interactions, and activation of selected staff members.
 - User Roles: Implemented secure logins for administrators, staff, and clients with tailored functionalities.
