SUMMARY

I am a software developer with **6 years of experience**, starting with core PHP, which provided a strong foundation in full-stack web development. Throughout my career, I have worked with a wide range of technologies and frameworks to develop scalable web applications, design efficient database architectures, and deliver seamless integration between client-side and server-side components.

SKILLS & CERTIFICATES

SKILLS

PHP (Laravel [Livewire,Inertia], Codeigniter, Wordpress) Flutter Android Java
MySQL/Pl Sql, ASP.NET Node Js Js (React Js, Vue Js, Alpine Js, JQuery) Python
Css (Bootstrap,Tailwind),Git, Excel.

CERTIFICATES

Php Development (Finedge IT Solutions Calicut)
Advanced Php and Full Stack Development (Nyeste Venture Technologies Pvt Ltd Ernakulam)
Python Development,Software Testing (Aspire IT Academy Ernakulam)
Php Wordpress (Just InfoTech)

KNOWLEDGES

Figma,Adobe XD Illustrator,Photoshop Google Map SDK GitHub,GitLab and Bitbucket
Play Store Configuration Adsense, Analytics, Ads Firebase, Aws and Azure Payment
Integrations (Strip,Razorpay..etc)

WORK HISTORY

EXPERIENCE

- | | | |
|-----------|--|---------------------|
| 2024-2025 | WHIZ CREATIVE TECH
Senior PHP Laravel Developer and App Developer <ul style="list-style-type: none">● Designed and developed scalable web applications using Laravel, integrating REST APIs, Livewire, and Vue.js for enhanced interactivity and performance.● Led the development of a hybrid mobile app using Flutter, ensuring smooth cross-platform functionality for Android and iOS. | Bengaluru,Karnataka |
| 2022-2024 | INDIGITAL GROUP
Senior PHP Laravel Developer <ul style="list-style-type: none">● Worked closely with QA and DevOps teams to streamline deployment workflows and improve CI/CD pipelines using Git and GitHub Actions.● Mentored junior developers, conducted code reviews, and established best practices to ensure maintainability and code quality. | Manjeri,Malappuram |

2021-2022	APOSTROFO OLIVE BRANDING AND STRATEGIC CONSULTANCY PHP Developer ● Participated in project planning and sprint reviews, aligning development priorities with client and stakeholder expectations. ● Optimized backend performance by refactoring legacy code, implementing job queues, and fine-tuning MySQL queries.	Manjeri, Malappuram

Kottakkal, Malappuram
2018-2019	NYESTE VENTURE TECHNOLOGIES PVT.LTD Fresher - (PHP Developer Trainee) ● Gained foundational experience in PHP and MySQL, contributing to small-scale modules and assisting senior developers with debugging and testing tasks.	Kochi, Ernakulam

PROJECTS

CATEGORY : SAAS APPLICATIONS

Project Name : *TeamIT* **Role :** *Leading Developer*
Technologies : *Php Laravel, Alpine, Bootstrap, MySql, Firebase*

- Built a project management platform with Admin modules to manage companies and Company modules to oversee teams, project expenses, total costs, and employee hours.
- Facilitated efficient team management and project reporting, allowing companies to monitor project expenses, costs, and employee productivity.

Project Name : *LeadgenPro* **Role :** *Leading Developer*
Technologies : *Php Laravel, Alpine, Bootstrap, MySql, Firebase*

- Designed a lead management system with Admin modules for vendor management and Vendor modules for website and lead management.
- Enabled comprehensive lead control through integrated call and SMS functionalities, functioning as a full-fledged CRM system.

Project Name : *Take it N go* **Role :** *Leading Developer*
Technologies : *Php Laravel, Bootstrap, MySql, Firebase, Vue.js*

- Managed module-level development for an extensive food delivery system, including Admin and Admin Staff modules for site and vendor management.
- Developed Multi-Vendor and Vendor User modules to oversee vendor sites, POS applications, reports, inventory, HR management, and payroll systems, ensuring efficient operational workflows.

CATEGORY : WEDDING PLANNER

Project Name : *Perfect Wedding Day* **Role :** *Supporting Developer*

Technologies : *Php Laravel, Bootstrap, MySql, Firebase, Vue.js*

- Supported the development of a comprehensive wedding planning platform with modules for Admin and Admin Staff to manage the site and vendors.
- Developed Multi-Vendor functionalities enabling vendors to manage their services, and Customer modules allowing couples to select vendors and schedule events.
- Achieved a luxury-level management system for wedding couples to oversee all event aspects, including food, decoration, and guest management, while enabling vendors to handle service offerings and admins to oversee vendor operations.

CATEGORY : ALL IN ONE BOOKING PLATFORMS

Project Name : *Bookly* **Role :** *Supporting Developer*

Technologies : *Php Laravel, Bootstrap, MySql, Firebase, Vue.js*

- Led the development of a booking system with modules for Admin and Admin Staff to manage the site and vendors, Users to book and manage locations, and Multi-Vendors along with Vendor Users to handle services and properties.
- Facilitated user bookings for event properties and empowered vendors to manage their property listings effectively.

Project Name : *Bookly* **Role :** *Supporting Developer*

Technologies : *Php, Bootstrap, MySql, JQuery*

- Developed a comprehensive car rental platform, allowing users to search, book, and manage car rentals seamlessly.
- Integrated modules for admin management of rental services, vehicle inventory, and pricing.
- Implemented vendor features for managing vehicle listings, availability, and customer bookings.
- Ensured responsive design and user-friendly navigation for a smooth user experience across devices.

CATEGORY : FUNDRAISING PLATFORM

Project Name : *Bookly* **Role :** *Supporting Developer*

Technologies : *Php Laravel, Bootstrap, MySql, Firebase, Vue.js*

- Directed the creation of a crowdfunding platform featuring Admin and Admin Staff modules for site and vendor management, User modules for donations and product purchases, and Multi-Vendor modules catering to social clubs and charities.
- Enabled social clubs and charities to collect funds for events or causes through direct donations and commission-based product sales, while allowing users to purchase products to support charity funding.

CATEGORY : REALESTATE PLATFORM

Project Name : *New Door Ventures* **Role :** *Leading Developer*

Technologies : *Php Laravel, Bootstrap, MySql, Firebase, Vue.js*

- Developed a real estate platform where sellers manage properties and buyers generate leads, providing end-to-end solutions for real estate transactions.

CATEGORY : ECOMMERCE PLATFORMS

Project Name : *Estore* **Role :** *Leading Developer*

Technologies : *Php Laravel, Tailwind, Alpine.js, Livewire*

- Leading the backend development of a mini CRM and POS application, providing a seamless experience for vendors and customers.
- Implementing Livewire for dynamic interactions and Tailwind CSS for responsive design.

Project Name : *Biz Flip* **Role :** *Leading Developer*

Technologies : *Php Laravel, React js., Tailwind, MySql, Firebase*

- Developed modules for a real estate platform, facilitating property management for sellers and lead generation for buyers.
- Implemented an admin system for overseeing sellers and property transactions.

Project Name : *My Sweetie Pie* **Role :** *Leading Developer*

Technologies : *Php Laravel, JavaScript, Bootstrap, MySql.*

- Developed and optimized front-end functionalities for an e-commerce platform specializing in sweet products like pies, cookies, and cakes.
- Implemented Admin modules to manage e-commerce operations and Customer modules to facilitate product purchases and views.

PROJECT WORKED AREAS

- Point of Sale (POS) Software, SaaS, ERP and CRMS Softwares, E-commerce Platform, Online Learning Platform, Rental Vehicle Management System, Wedding Planning System, Real Estate Listing Platform

EDUCATION

KERALA UNIVERSITY, TRIVANDRUM	2019
<i>Master of Science; Computer Science</i>	
• I have completed Master's Degree in Computer Science from Kerala University	
UNIVERSITY OF CALICUT	2023
<i>Bachelor of Science, Computer Science</i>	
• I have completed Bachelor's Degree in Computer Science from University of Calicut
