Address: 3/212, Nethaji Nagar,
Y.Othakkadai, Madurai-625 107

PROFESSIONAL SUMMARY

Backend Developer specialized in PHP, Laravel, and MySQL. Expert in high-performance CRUD systems and API integrations (Payments, Google Maps). A pioneer in "Vibe Coding", leveraging AI tools (Claude, Antigravity, Codex) to accelerate prototyping and architectural delivery. Combines deep technical fundamentals with AI-augmented efficiency to solve complex challenges.

EDUCATION

Graduation | 2021-2025

Ultra college of Engineering and Technology, Madurai, Tamilnadu

- Bachelor of Technology in Information Technology | **CGPA: 7.7**

Higher Secondary School | 2020 - 2021

Moolchand Academy senior secondary school, Najibabad, Uttar Pradesh.

- Computer Science | **Score: 72.4**

Secondary School | 2018 - 2019

Moolchand Academy senior secondary school, Najibabad, Uttar Pradesh.

- All subject | **Score: 79.8**

SKILL SETS

- **PROGRAMMING LANGUAGE** : PHP, Javascript, Python, SQL
- **FRONTEND DEVELOPMENT** : HTML, CSS, Bootstrap
- **BACKEND DEVELOPMENT** : Laravel, Django
- **DATABASE** : MySQL, PostgreSQL
- **VERSION CONTROL** : Git, Gitlab

WORK EXPERIENCE

Trioangle Technologies, Gandhi Nagar, Madurai | Aug 2025 - Mar 2026

Skills - PHP, Laravel, JavaScript, API, Git.

- Contributed to the developed high-scale Airbnb and Uber clone applications using the PHP Laravel framework, optimizing backend logic and SQL database queries to ensure a scalable architecture and superior user experience.
- Executed robust API integrations for secure financial transactions, including Stripe, PayPal, and Easebuzz, along with custom implementations for automated payouts, real-time refunds, and multi-currency support.
- Successfully integrated Google Maps API and Google Places Autocomplete API to provide precise real-time interactive mapping, and enhanced user address entry.
- Utilized Claude, Antigravity, and Codex for rapid prototyping and code refactoring, significantly accelerating development cycles while ensuring high architectural standards.

INTERNSHIP

Dreamy Technology, Y.Othakkadai, Madurai | Nov 2024 - Dec 2024

Skills gained - Django Framework, Django Rest API, HTML, CSS, Bootstrap

- Developed a dynamic blog website using Django that automates content updates via database retrieval, eliminating manual template changes and enhancing backend data management.

Edunet Foundation, Domlur, Bengaluru | Apr 2025 - May 2025

Skills gained - Artificial Intelligence, Deep Learning, Machine Learning.

- Completed a real-estate price prediction project using Machine Learning, while gaining practical experience in Deep Learning, Generative AI, and AI agents.

SkillsDA, Paddy Market, Madurai | Jan 2025 - Apr 2025

Skills gained - Cyber Security, Python, Network Analysis, Penetration

- Acquired foundational cybersecurity and coding skills to mitigate digital fraud and security threats, while significantly enhancing professional communication and soft skills.

PROJECTS

CRUD Application using PHP | Aug 2025 - Aug 2025 | [Project Link](#)

Skills used - PHP, MySQL, HTML, CSS.

- I built a CRUD Application in which the data can be retrieved from Database like MySQL. The data can also be inserted, updated and deleted over the server.

PhysioCare Healthcare Web App | Jan 2026 - Jan 2026

Skills used - Laravel, PHP, MySQL, Blade, JS, Tailwind.

- Built a Laravel clinic booking/management platform with full CRUD for services, timeslots, bookings, users, and content. Implemented Eloquent relations, filtered search, and admin dashboards. Delivered secure backend workflows for live booking updates

Python Compiler using Django | Feb 2025 - Feb 2025 | [Project Link](#)

Skills used - Python, Django Framework, Django Rest API

- I build a Python IDE(Integrated Development Environment) using Django that can run any kind of Python code over the internet that will provide a valid output for code.

Certification

- PHP | [Link](#)
- Python | [Link](#)
- Django | [Link](#)

Languages

- English
- Hindi
- Tamil
