TECHNICAL SKILLS

PHP / Laravel	●	●	●	●	●
JavaScript / React	●	●	●	●	●
Node.js	●	●	●	●	●
Python	●	●	●	●	●
MySQL / Redis	●	●	●	●	●
AWS / Docker	●	●	●	●	●
REST API Design	●	●	●	●	●
OpenAI / RAG / LLM	●	●	●	●	●
Git / CI-CD	●	●	●	●	●
WordPress	●	●	●	●	●

TOOLS & PLATFORMS

- > Jira / Agile / Scrum
- > Google BigQuery
- > Vector DBs (Pinecone)
- > Postman / Swagger
- > Figma (Collaboration)
- > Tailwind CSS
- > Linux Server Admin
- > SEO Content Operations

EDUCATION

B.Tech, Computer Science
Kerala Technological University
Graduated: 2022

PROFESSIONAL SUMMARY

Hybrid Full Stack Engineer and Technical Project Manager with 4+ years of hands-on experience across fintech systems, AI-powered platforms, ERP solutions, and scalable SaaS architecture. Delivered 50+ freelance and client projects spanning diverse industries. Skilled in designing double-entry ledger systems, payment workflows, AI customer support systems, and multi-partner platforms. Proven ability to lead projects end-to-end, coordinate cross-functional teams, and ship complex technical solutions in startup and product environments.

PROFESSIONAL EXPERIENCE

Project Manager | ZilMoney Nov 2025 - Present

- Lead end-to-end project planning, sprint coordination, requirement analysis, and delivery management for fintech products across the Zil Money / OnlineCheckWriter ecosystem.
- Coordinate engineering, content, SEO, and design teams to align technical execution with business goals and compliance requirements.
- Drive architecture decisions and product implementation strategies for payment platforms, AI integrations, and international remittance features (Ripple Payments Direct).
- Oversee structured content production workflows, compliance-first publishing pipelines, and cross-brand content governance.
- Manage stakeholder communication and approval gates across product, engineering, and marketing functions.

Full Stack Developer | ZilMoney Jul - Nov 2025

Fintech & Ledger Systems

- Designed and implemented a double-entry ledger system handling wallet balances, ACH, wire transfer, and real-time payment workflows.
- Built transaction audit trails and reconciliation flows for multi-partner SaaS financial architecture.

AI & Automation Systems

- Engineered AI-powered customer support systems using Laravel with OpenAI API and RAG pipelines.
- Designed customer profiling systems using payment history, KYC records, and conversational data.
- Optimized token consumption, chat history retention strategies, and vector database retrieval performance.

Full Stack Dev -> Project Manager | Habteq 2022 - 2025

- Built and maintained 15+ client applications across healthcare, logistics, retail, and B2B industries using Laravel and React.
- Integrated third-party APIs (payment gateways, analytics, CRMs) and leveraged Google BigQuery for large-scale data processing.
- Managed full project lifecycle: client communication, requirement gathering, sprint planning, and on-time delivery.
- Mentored junior developers on code quality, architectural patterns, and delivery best practices.

- KEY HIGHLIGHTS
- 50+ projects delivered across freelance, agency, and product environments
 - Built production fintech ledger systems from scratch
 - AI customer support with OpenAI + RAG architecture
 - Developer to PM progression in 3 years
 - Founded a tech startup (Cachpi Technologies LLP)
 - Strong engineering execution and cross-functional leadership

- CORE COMPETENCIES
- SaaS Multi-Tenant Architecture
 - Payment Gateway Integration
 - Double-Entry Ledger Design
 - AI/LLM Prompt Engineering
 - RAG Pipeline Architecture
 - Token Optimization
 - Sprint Planning & Delivery
 - Cross-Functional Leadership
 - Requirement Analysis
 - Client Communication
 - Compliance-First Content Ops
 - Webhook & Event Systems

- EXPERIENCE (CONTINUED)
- Junior PHP Developer | Delta Soft Technologies

2021 - 2022

 - Developed PHP-based ERP modules for business management systems, contributing to backend architecture and feature implementation.
 - Supported development workflows, maintenance cycles, and system integrations across client deployments.
- Founder / Technical Lead | Cachpi Technologies LLP

~1 Year

 - Founded a technology startup; served as primary technical lead building ERP solutions for small businesses including dental clinics and mosque management systems.
 - Managed end-to-end development, client relationships, and project execution. Operations discontinued during COVID-19.

- FREELANCE & INDEPENDENT PROJECTS
- Delivered 50+ freelance projects across diverse domains, including:
- Custom web applications, admin dashboards, and CMS-based sites for SMBs and startups.
 - E-commerce platforms with payment integrations, inventory management, and order workflows.
 - SaaS MVPs and API-driven microservices for early-stage product teams.
 - ERP modules, CRM systems, and business automation tools tailored to client-specific operations.
 - WordPress development, theme customization, plugin integrations, and performance optimization.

DETAILED SKILL MATRIX

Category	Technologies & Tools
Languages	PHP, JavaScript (ES6+), Python, SQL
Backend	Laravel, Node.js, REST APIs, SaaS Architecture, Webhooks
Frontend	React, HTML5, CSS3, Tailwind CSS, Responsive UI
Databases	MySQL, Redis, Google BigQuery, Vector DBs (Pinecone/Weaviate)
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda), Docker, Git, CI/CD, Linux
AI & Automation	OpenAI API, RAG Pipelines, LLM Prompt Eng., Token Optimization
PM & Delivery	Agile/Scrum, Jira, Sprint Planning, Requirements Analysis
CMS & Other	WordPress, SEO Content Ops, Figma, Postman, Swagger
