PROFESSIONAL SUMMARY

Python Backend Developer with **3 years of experience** specializing in building scalable web applications and RESTful APIs using **Django** and **Django REST Framework (DRF)**. Proven track record of delivering end-to-end solutions, from requirement analysis and database design to API integration for mobile and web platforms. Proficient in SQL query optimization, debugging, and writing clean, maintainable code. Skilled in collaborating with cross-functional teams to deliver projects on time.

TECHNICAL SKILLS

Languages & Frameworks: Python, Django, Django REST Framework (DRF), REST API Development, FastAPI, HTML, CSS

Databases: PostgreSQL, MySQL, SQLite

Authentication & Security: OAuth2, JWT, Role-Based Access Control, Secure Coding Practice

API Development: RESTful API Design, JSON, Postman (Testing & Documentation)

Development Tools: Git, GitHub, VS Code, PyCharm, Android Studio, Postman

Core Competencies: End-to-End Application Development (SDLC), MVT Architecture, Authentication(JWT/session), Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Backend Developer May 2025 – Present

DriveSync Technologies LLP Hyderabad, Telangana

- Led 100% of the backend SDLC for web and mobile platforms, handling requirement analysis, database schema design, API development, testing, and deployment
- Architected and maintained 20+ scalable RESTful APIs using Django REST Framework (DRF), enabling seamless real-time data synchronization across mobile applications
- Collaborated with frontend and mobile teams to integrate APIs, achieving 100% successful API integration coverage through rigorous Postman testing and documentation
- Implemented secure authentication and authorization mechanisms using JWT/token-based systems, reducing unauthorized access incidents by 40%
- Optimized API performance and database queries through strategic code refactoring and indexing, improving response times by 35% and overall system stability

Backend Developer Mar 2023 – Apr 2025

LDev Technologies Pvt Ltd Hyderabad, Telangana

- Developed and maintained 15+ backend modules using Python and Django, translating complex business requirements into scalable and high-performance server-side solutions
- Designed, built, and integrated 25+ RESTful API endpoints to support mobile and web application features, ensuring 100% consistent and secure data exchange
- Mentored 2 junior developers through structured code reviews and best-practice sessions, improving team code quality and delivery efficiency by 30%
- Managed version control using Git and GitHub, maintaining 100% clean commit history and enabling smooth collaboration across cross-functional teams
- Diagnosed and resolved 50+ critical bugs and performance issues, performing refactoring that improved backend reliability and maintainability by 40%

- Created and maintained detailed API documentation using Postman, reducing frontend and mobile integration time by 35%

KEY PROJECTS

ManaPanta – Farm Service Ecosystem | Link: <https://manapanta.in/> | Oct 2024 – Jul 2025

- Developed unified backend infrastructure powering **3 Android applications**: farm bookings, driver dispatch, and staff management for **2,000+ users**.
- Built real-time location tracking and notification system coordinating field operations across rural areas
- Tested REST APIs in Postman and shared detailed API documentation with the Flutter team for seamless frontend integration.

BoneltUp – Multi-Platform Canine Health Ecosystem | Link: <https://en.boneitup.com/> | Feb 2025 – Nov 2025

- Designed the backend infrastructure for the “Exclusive Bites” mobile application, delivering step-by-step video content and healthy recipe data via RESTful APIs.
- Managed the database schema for the e-commerce platform, handling product collections such as “Dog Birthday Cake Kits” and nutritional treat ingredients.
- Customized the Django Admin dashboard to facilitate easy content management for video tutorials, product inventory, and order tracking.

SpeedExam – AI-Powered Online Examination Platform | Link: <https://www.speedexam.net/> | Nov 2024 – Sep 2025

- Engineered high-performance examination engine with robust state management
- Built high-availability REST APIs supporting AI proctoring, live monitoring, and dynamic question bank system for 10,000+ concurrent students.
- Constructed WebSocket-based real-time notification system, reducing exam processing latency by 45%
- Implemented multi-language support, automated test generation, and comprehensive result analytics.

EDUCATION

Bachelor’s Degree in Computer Science

New Science Degree & P.G. College, Warangal, Telangana

Graduated 2021
