EXPERT IN SKILLS

Laravel | Codeigniter | Mysql & MariaDB | MogoDb | Jquery | Bootstrap | newRelic | Github | BitBucket | Postman | CI/CD | Lunix | MVC | Docker | GitLab | Lumen | AWS | EC2 | S3 | Git | Jira | Composer | Cloudflare | Gmail outlook plugins | GraphQL | TimeSeries DB | Redis | Browser Extensions | Azure | Wordpress | NestJS | Macros | Symfony | NestJS

CURRENT ORGANIZATION

PHP LEAD
Signitives

07/2024 – Present — *Hyderabad*

Software Architect/Backend Developer

- Architect and led the development of backend systems, a scalable multilingual news aggregation platform with real-time analytics and automated content pipelines. Focused on high availability, modular architecture, and future-ready scaling.

Contact: HR – 9963673505

ACHIEVEMENTS

Backend Powerhouse: Mastery over PHP (Laravel, CodeIgniter) and Python, with hands-on expertise in building RESTful APIs, implementing complex business logic, and designing high-performance databases (MySQL, PostgreSQL). Expert in MVC architecture and backend best practices

Architectural Leadership: Architect of mission-critical systems with a focus on modular, maintainable, and scalable solutions. Skilled in domain-driven design (DDD), multi-tenant architecture, event-driven systems, and secure API integrations.

Secure Payment Integrations: Deep experience integrating and customizing payment gateways (Stripe, Razorpay, PayPal), handling complex billing flows, webhooks, subscriptions, and fraud prevention.

Cloud & Infrastructure-Ready: Solid working knowledge of AWS (EC2, S3, RDS) and Linux server administration, enabling reliable cloud deployments and infrastructure optimization.

ACHIEVEMENTS

DevOps and Automation Advocate: Proficient in Git workflows, CI/CD, Docker, and deployment automation for delivering clean, testable code with zero downtime.

AI-Enabled Mindset: Exploring and integrating AI-powered enhancements using LLMs (OpenAI, LangChain, etc.), intelligent automation, and recommendation systems to future-proof backend solutions

Mentor & Team Enabler: A technical leader who mentors teams, enforces code quality, drives architectural decisions, and fosters a culture of innovation and excellence.

Proficient understanding of Git,Experience in Agile development process & Tools , REST Services

Very good analytical and problem solving skills, Knowledge on Linux/Shell commands

Effective time management, coordination skills and ability to handle multiple projects.

Excellent knowledge on HTML5, JavaScript/ Libraries, Jquery, CSS3, JQuery, AJAX and PHP, LAMP, WAMP

ROLES & RESPONSIBILITYS

- Execute complex projects (Conceptualize, design, developer, unit test, implement, guide certification team).
- Get exposure to a complete Product Life Cycle Development.
- Implement new features and modern designs to improve the experience of our member-facing digital platform and internal servicing tools.
- Work closely with Product Owners, Design, DevOps, QA, and other engineers to develop performant, innovative, scalable, and secure code.
- Define and apply coding standards that reduce complexity, while mentoring other developers to best practices that fully leverage modern PHP functionality.
- Influence the build and deployment process by collaborating in problem-solving discussions to find solutions driven by experience and analytical skills.
- Plan, develop and test web applications in a SaaS solution using php, mysql, Codeigniter, Laravel, apache.
- Design and implement internal API's and integrate third-party API's to support our platform.
- Participate in design workshops and technical requirements sessions as needed.

ORGANIZATIONS

Tricon Infotech (12/2021 - 07/2023)
Principal Software Engg It's related to the E-commerce routledge.com. Books selling website

TCS under Foray (03/2021 - 11/2021)
Principal Software Engg , Supporting Apple forecasting for Iphone13 and all other Apple accessories using ML via PHP API's

Synechron (08/2023 - 03/2024)
Architected and deployed enterprise-grade web applications at Synechron using scalable Laravel and CodeIgniter solutions.

U&Me Communication (08/2018 - 08/2020)
Sr. PHP developer[Direct interaction with client for the payment gateway API's and Worked with nodejs Team for BlockChain payment gateway]

ORGANIZATIONS

Vertiv Software Labs (06/2016 - 12/2017)
Sr PHP Developer[Supporting KFC using Service now to give the latest updates to franchise requested by the respective team]

STPL ICT Consulting Pvt. Ltd (07/2013 - 12/2016)
PHP web Developer[Implemented SchoolTime Application from scratch]

Genesys inc (07/2011 - 07/2013)
Jr PHP Developer

PROJECTS

Routledge[Laravel,MYSQL] E-Commerce (12/2024 - Present)
- Built a custom PHP-based CMS to manage and update website content efficiently
- Implemented e-commerce features including shopping cart, secure payments, and order management.
- Optimized database queries and PHP code to improve performance and page load speed.
- Implemented security measures such as authentication, data protection, and vulnerability prevention.

Apple Frocasting tool[Laravel,MYSQL] (03/2021 - 11/2021)
- Developed an advanced forecasting tool to analyze historical data and market trends related to Apple Inc.
- Built scalable architecture to process large volumes of financial and market data accurately.
- Applied statistical and machine-learning techniques to predict sales, revenue, and key KPIs.
- Implemented scenario-based forecasting with user-defined parameters for decision modeling

EVERUS[Laravel,MYSQL] BlockChian (08/2018 - 08/2020)
- Developed and maintained PHP-based web applications using Laravel and MySQL.
- Built scalable, maintainable back-end systems with clean coding standards.
- Implemented RESTful APIs for third-party integrations and data exchange.
- Developed responsive UI components using HTML, CSS, JavaScript, and jQuery.

TECHNICAL SKILLS

Cloud	AWS,S3Bicket,EC2	**Backend**	Laravel,Codeigniter,NestJS,Symfony
Database	MYSQL,MangoDB,Postgress,TimeSeriesDB	**Monitoring Tool**	NewRelic
Froent End	HTML,CSS,Jquery, Ajax	**SVN**	GIT,GIT Desktop, Git Lab, Sourcetree

SOFT SKILLS

Self-Motivation | Leadership | Problem Solving | Adaptability | Teamwork | Time Management
