KEY PROJECTS

Projects at ZH Healthcare

- **Digital health solutions site: blueEHR** | Zend framework & MySQL.
 - blueEHR is a comprehensive EHR system designed for multi-specialty integrated care. It features a unified patient record, an intuitive form builder for custom clinical notes, multilingual support for languages, and patient portals for enhanced engagement and improved outcomes.

Projects at Portrave Solutions

- **WooCommerce site: Papeterieplus** | Wordpress & MySQL.
 - Papeterie Plus is an e-commerce platform for seamless stationery shopping. The project involved importing extensive product catalogs, customizing WooCommerce's price matrix for variable pricing, and tailoring the theme to enhance user experience. Plugin customization extended the site's functionality, while multilingual support ensured accessibility for a diverse audience
- **WordPress site: Corporategolfclubs** | Wordpress & MySQL.
 - Corporate Golf Clubs is a marketing platform that helps business professionals enjoy

golf at significantly reduced costs. The site connects sponsors with golf clubs across the UK, offering advertising opportunities on websites. Sponsors receive free golf vouchers as a token of appreciation. The project also involved Salesforce integration to streamline lead management and enhance operational efficiency.

Projects at Codea Technologies

- **Yii Framework: Allamericanmetal** | Yii Framework & MySQL.
 - All American Metal collaborates with architects and commercial site owners to deliver custom, cost-effective solutions designed for lasting durability and modern appeal. The platform highlights partition styles, ensuring accessibility while maintaining attractive and practical designs for various commercial spaces. The project emphasizes seamless integration of client ideas into product offerings, supported by an intuitive user experience and efficient backend management.

Projects at Smacon Technologies

- **E-commerce site: Ecomey** | Laravel framework & MySQL.
 - Ecomey is a dynamic ecommerce platform offering custom T-shirt design through a user-friendly built-in form. The site supports subscriptions, enabling users to unlock exclusive deals and features. It provides dedicated login portals for admins, sellers, and vendors, with functionality for admins or sellers to approve vendor registrations and product listings. Vendors can manage their products, which can also be listed on marketplaces like Amazon. The platform is integrated with Stripe for secure payment processing and includes a coupon system to enhance the shopping experience.
- **News portal site: UKmalayale** | Wordpress & MySQL.
 - UKMalayalee is a comprehensive news portal serving the Malayalee community in the UK. The platform delivers up-to-date news, events, and featuring categories such as NRI news, immigration updates, UK-specific news, classifieds, and more. The site is designed with a user-friendly interface, ensuring easy navigation and accessibility to a diverse audience. It also includes features like a classifieds section and community news to engage users actively.
- **Professional Association Site: IRIA Kerala** | Wordpress & MySQL.

- IRIAKerala is the official website of the Indian Radiological and Imaging Association's Kerala chapter. The platform serves as a central hub for radiologists in Kerala, providing information on conferences, activities, office bearers, and membership details. It features resources such as the latest news, case studies, and educational materials. The site also offers contact information and facilitates communication among members.
