PROFILE

Full Stack Software Developer with 4+ years of experience in building scalable web and mobile applications using React, Node.js, Laravel, and modern JavaScript frameworks. Experienced in developing AI-powered solutions, RESTful APIs, and cloud-based platforms with AWS integration. Proven expertise in end-to-end product development, third-party API integrations, and delivering high-performance enterprise applications across multiple domains.

TECHNICAL SKILLS

Programming Languages:	React, JavaScript, TypeScript, PHP
Frameworks & Libraries:	Laravel, Node.js, Nest.js, Redux, React Native, CodeIgniter
Web Technologies:	HTML5, CSS3, RESTful APIs, JSON, AJAX
Database:	MySQL
Cloud & Server:	AWS, cPanel
AI & LLM:	OpenAI API, LLM Prompt Engineering, Context-Based AI
Payment Gateways:	PayPal, Stripe, Paytm
Third-Party APIs:	ChatGPT, Facebook, Google, Instagram, Twitter, TikTok
3rd Party Services:	Google Calendar, iCal, Mailgun, FCM API
Project Management:	Asana, Trello, Jira
Dev Tools:	Git, npm, Webpack, Babel

PROFESSIONAL EXPERIENCE

Sr. Software Developer — Appwrk IT Solutions, Mohali | Jan 2022 – Present

AI Chatbot – IFB (React, Node.js)

Developed an AI-powered customer support chatbot for IFB to automate user interactions and streamline service operations. Handles customer queries, product information, troubleshooting, and appointment/service booking.

Chrome Extension Auto Login (React, Nest.js, JavaScript) | autologme.com

Built a browser extension that securely stores and auto-fills login credentials. Used Chrome Extension APIs for web-page interaction and implemented encryption for secure data storage, improving convenience across multiple websites.

Vidchops (React, Laravel, MySQL, AWS) | portal.vidchops.com

Full-stack developer on a video editing platform. Managed SQL database, integrated AWS for scalability, implemented cron jobs for card movement and live comments for real-time collaboration.

JJ Media (React, Nest.js) | onqueapp.com

Built a subscription-based social media management platform enabling scheduled posts via calendar to Facebook, TikTok, Instagram, and YouTube with automated publishing.

Panda Facility (Laravel, React Native) | pandafacility.com

Developed a comprehensive building management platform (web + mobile). Separate apps for residents and contractors to report issues, book amenities, and manage resolutions.

Insurance Portal (CodeIgniter) | insurance.renewpower.com

Built a web-based insurance claim management system with features for documentation, status tracking, and stakeholder communication to streamline claim workflows.

Planning Homes (React, Laravel) | planninghomes.appwrk.com

Developed a home design platform offering ready-made designs, Vastu-compliant layouts, and custom designs with subscription plans, demo call scheduling, and an admin panel for team/calendar management.

CRM IT Module (Laravel) | crm.itmodule.appwrk.com

Built an internal tool for managing company assets and IT resources — tracking employee assignments, product warranties, and new asset requests.

CRM Business Management (PHP) | crm.appwrk.com

Developed a CRM for the BDE team to track bids, hired and direct projects, billing hours, and client interactions with real-time project status updates.

Vitrine (Laravel) | vitrine.leon.com

Built a creator-business collaboration platform for ad promotions on social media. Businesses select creators, creators complete tasks and earn commissions, with platform taking a cut.

AI Auto-Reply Email System (JavaScript)

Developed an AI-powered email automation system using NLP and LLM integration to read incoming emails and generate context-aware, professional replies based on business rules and knowledge sources.

AI Social Media Auto-Comment Extension (JavaScript)

Built a browser extension that auto-generates context-aware comments for LinkedIn, Twitter (X), and Reddit posts using real-time LLM-based NLP processing tailored to each platform's tone.

EDUCATION

B.Tech in Computer Science & Engineering — Swami Vivekanand Institute of Engineering & Technology, Punjab, India | 2018 – 2022
