- Developed and delivered custom web applications using Core PHP, CodeIgniter, and Laravel
- Managed end-to-end frontend and backend integration to ensure seamless functionality.
- Designed and implemented tailored solutions based on client requirements
- Designed, optimized, and maintained MySQL databases for performance and scalability.
- Integrated third-party APIs and configured payment gateway solutions.

Selected Projects

- **E-commerce Website (Fashion Accessories, Key Purchasing, Cake Ingredients, Tea Purchasing)**
Developed a full-featured online store with order management and payment gateway integration
Tech: Laravel, Node.js, React.js, Core PHP, JavaScript, Bootstrap, MySQL.
- **Student Admission Management Software**
Built a dynamic system for student registration and data management
Tech: Node.js, MySQL, JavaScript, Bootstrap.
- **Pharma Sales Management Software**
Developed a portal for sales planning and employee performance tracking
Tech: Laravel 8, JavaScript, MySQL.
- **Fund Management System**
Designed a portal for fund application processing and approval workflows
Tech: Laravel, JavaScript, MySQL.
- **College Transfer Portal (Higher Education Department Under Bikas Vaban)**
Built a system for managing transfer applications and approvals
Tech: CodeIgniter, JavaScript, MySQL.
- **Hospital Management System**
Developed a multi-role system for managing hospital operations
Tech: Laravel, CodeIgniter, JavaScript, MySQL.
- **Micro CRM System**

Developed a lightweight CRM system for managing customer data, lead tracking, interactions, and reporting

Tech: Node.js, React.js, MySQL

- **Inventory Management System**

Developed a system for managing stock, suppliers, and transactions with real-time tracking and reporting

Tech: Laravel 11, JavaScript, MySQL.

Education

MCA – Brainware University (2018–2021) | CGPA: 9.27
