PROFESSIONAL SUMMARY

Senior Software Engineer and Team Lead with 8+ years of experience designing and delivering scalable, high-performance backend systems in PHP/Laravel. Led cross-functional teams of 15+ engineers, architecting microservices for high-traffic APIs, and driving end-to-end ERP integrations (NetSuite, QuickBooks). Adaptive to applying engineering best practices—TDD, CI/CD, code review, and Agile—to accelerate delivery velocity and system reliability at scale.

PROFESSIONAL EXPERIENCE

Team Lead — Senior Software Engineer

Jan 2024 – Present

GrowErr, Ahmedabad

- Led and mentored a team of 15+ engineers that delivered API-first SaaS products using microservice architecture; increased the team's delivery velocity by **20%** through enforced code review standards and engineering best practices.
- Architected end-to-end order lifecycle platform covering placement, shipment, tracking, RTO, and reporting—deployed across high-traffic RESTful APIs with queue-based processing.
- Designed cross-platform integrations that span Laravel, Symfony, NetSuite, and QuickBooks, reducing manual reconciliation by **90%** through automated ERP sync for inventory and financial data.
- Led technical design of Stonly-integrated knowledge-base workflows, improving customer self-service resolution rates.

Senior Software Engineer

Jan 2022 – Nov 2023

Grassdoor Logistics Pvt. Ltd., Goa

- Built high-performance Laravel applications powering large-scale logistics and high-volume order processing pipelines.
- Reduced API response times by **40%** through Redis caching strategies and targeted database query optimization.
- Implemented full order lifecycle modules: placement, multi-carrier shipping integration, real-time delivery tracking, and customer notifications.

Senior Software Engineer — Team Lead

May 2021 – Nov 2021

Albanero, Hyderabad

- Achieved 100% accounting data accuracy by architecting a suite of Lumen-based microservices that automated end-to-end QuickBooks synchronization for all sales and purchase orders.
- Drove high-performance logistics-enabled order management systems to streamline inbound and outbound supply chain workflows, ensuring data integrity during high-volume transactions.

Software Developer

Oct 2020 – Mar 2021

ZH Healthcare Pvt. Ltd., Hyderabad

- Forged the blueEHR platform with OAuth 2.0 authentication, role-based access control, server-side caching, and HIPAA-compliant data security.

Software Engineer

Aug 2015 – Sep 2020

Nextgen eSolutions Pvt. Ltd., Delhi

- Designed, maintained, and optimized Hospital Management Systems (HIS) using Core PHP, MySQL, and AJAX, supporting hundreds of concurrent clinical users.
- Reduced clinical workflow latency by 30% through legacy Core PHP refactoring and MySQL query optimization.
