Payment Gateway : Paypal Barclay card
URL : <http://www.arcadiagoogleadwords.com/>

Project Name : **inlieuofagift**
Role : Senior Software Engineer
Duration : April 2008 to May 2008
Team Size : 2
Technologies Used : smarty, payment gate way paypal, Authorised .net
URL : <http://www.inlieuofagift.com/>

Project Name : **Ad Tag**
Role : Software Engineer
Duration : May 2007 to till now
Team Size : 4
Technologies Used : PHP 4(Cakephp), CGI-PERL, HTML/ CSS/ JavaScript, Ajax, Apache Web Server 1.3, MySQL 3.23, IE 5.0+ and Mozilla Firefox and Netscape.
URL : www.adtag.info
www.adtaggers.com

Description:

Basically this is a website which is Ad TAG Small Message Service (SMS) Interaction Software (The Software) which is a core component of the Ad TAG Analysis System(The System). The software will collect essential data for analysis by clients (The Clients) The software collects the data through interaction with consumers (The Taggers) primarily via SMS on their mobile phones and secondarily via the internet through the Ad TAG websites. The collected data is analyzed and available immediately to the Clients that have been granted access to the Ad TAG Analytics server where they will have real-time statistics and be able to produce up to the minute, market based reports.

Data is collected from The Taggers primarily via SMS and secondarily from the Internet. These two areas of technology are integrated and designed to give The Taggers the easiest channels possible to interact with The Software. The data collected is analyzed and is available to The Clients to determine the impact that their advertisements are having on their target markets

The primary method of collecting data from the Taggers is via SMS (or GPRS or similar). Incoming SMS's need to be examined to determine how the data contained within the SMS is to be processed and what type of response needs to be generated by The Software.

Basic features:

- Client/Companies will be utilizing the application to manage various marketing campaigns on various products in various Medias. Extensive advance search functions.
 - Participants will participate in various campaigns managed by the campaigns and win prizes.
 - Not necessary Registration to Participate Quiz/Campaign
 - Used Ajax
- Used Sms Gateway
