

PRAFFUL K PANWAR

Technical Lead | Backend Engineer (PHP/Laravel)

Bangalore, India | +91 8660768782 | praffulpanwar2016@gmail.com

LinkedIn: <https://www.linkedin.com/in/praffulpanwar> | GitHub: <https://github.com/prafful-panwar>

Professional Summary

Technical Lead with 12+ years of experience building backend systems using PHP (Laravel, CodeIgniter), MySQL, and REST APIs. Experienced in leading small to mid-sized development teams, owning end-to-end feature delivery, and translating business requirements into stable, production-ready solutions. Trusted to balance hands-on development with code reviews, technical guidance, and delivery accountability.

Key Highlights

- 12+ years of experience building scalable backend systems using PHP (Laravel, CodeIgniter), designing maintainable data models, optimizing complex database queries, and delivering high-traffic REST APIs for web, mobile, and headless applications.
 - Led end-to-end project delivery within cross-functional teams, driving architecture decisions, development executions, and production stability.
 - Hands-on experience with Redis, AWS services, and Docker, implementing caching, queues, and CI/CD pipelines using GitHub Actions for automated builds, security checks, and deployments.
 - Proactive problem solver and mentor, recognized for refactoring legacy codebases to improve performance, scalability, and developer onboarding.
 - Leveraged AI-assisted development tools (Cursor, GitHub Copilot, Claude) to improve development velocity, testing efficiency, and documentation quality.
-

Technical Skills

- **Backend & Languages:** PHP (Laravel – primary, CodeIgniter), JavaScript, SQL, XML, JSON, Node.js
- **Frontend** (basic exposure): HTML, CSS, jQuery, Angular, AngularJS, React, Vue
- **Databases:** MySQL, PostgreSQL, MongoDB, Redis, AWS Databases (RDS, DynamoDB)
- **Web Servers:** Apache, Nginx

- **Architecture & Patterns:** MVC, REST APIs, SOAP APIs, Microservices, OOP, SOLID Principles, Design Patterns, Agile
 - **Cloud & Infrastructure:** AWS (EC2, S3, RDS, CloudWatch, CloudFront, SQS, SNS, IAM, EKS, Route 53)
 - **DevOps & Tools:** Git, GitHub Actions, Docker, CI/CD, Jira, Trello, Postman, GitHub Copilot, Cursor, Antigravity, Gemini CLI, Claude
 - **Operating Systems:** Windows, Linux, macOS
-

Professional Experience

Nous Infosystems — Technical Lead

Apr 2023 – Nov 2025 - Collaborated with client Envestnet to implement new features and resolve production issues. - Interfaced with vendors like Raymond James and UBS to understand user needs and enhance application usability. - Led enhancements to align the application with business vision.

Project: 401kplans.com

- **Tech Stack:** Laravel (API), MySQL, AngularJS, Angular, Bootstrap, Redis, Queues
 - **Team Size:** 10
 - **Role:** Technical Lead
-

Freelancing — Software Consultant

Feb 2022 – Mar 2023 - Led end-to-end delivery of multiple client projects as the primary point of contact. Collaborated closely with clients to gather requirements, define architecture, and plan development. Worked with a small team of developers and designers to deliver complete solutions across web, iOS, and Android platforms. Used Laravel to build robust APIs and backend systems, integrated with Redis and MySQL. Oversaw the entire development lifecycle — from UX planning and UI implementation to deployment — ensuring scalable and intuitive applications.

Janaagraha Centre for Citizenship and Democracy — Technical Consultant

Apr 2021 – Feb 2022 - Migrated legacy application to SBM 2.0 in response to 2021-22 budget announcement. - Maintained and enhanced civic-tech platforms including mobile and web integrations.

Project: Swachhta

- **Tech Stack:** PHP 7/8, CodeIgniter, Laravel, Lumen (API), MySQL, Redis, AngularJS
 - **Platform:** Web, Android, iOS
 - Government of India's complaint redressal civic app enabling real-time engagement and voting on issues. - URL: <https://www.swachh.city>
-

AyurUniverse — Technical Consultant

Jun 2019 – Apr 2021 - Added new features and modernized tech stack to enhance user experience. - Maintained and scaled wellness booking platform across 300+ locations.

Project: AyurUniverse

- **Tech Stack:** PHP 7/8, Laravel, MySQL, Node.js, AngularJS, Redis, S3

- URL: <https://www.ayuruniverse.com>

Janaagraha Centre for Citizenship and Democracy — Technical Associate

Jul 2016 – Jun 2019 - Contributed to civic-tech products: Swachh Manch, Swachhta, and I Change My City. - Played key role in development, support, and version upgrades.

Bloom Consulting Services — Sr. PHP Developer

Jul 2015 – Jul 2016 - Developed applications such as Kalakshetra Hall Booking, EC2WIN, Human Dynamic.

Web Date System Pvt. Ltd. — Sr. PHP Developer

Oct 2014 – Apr 2015 - Built internal CRM, HRM, and support ticketing tools.

Hogo Works Solution Pvt. Ltd. — Software Developer

Feb 2013 – Oct 2014 - Developed modules like HRM, CRM, SMS portals, and consultancy systems.

Education & Other Details

- **MCA**, Bangalore University – 2013 – 61.5%
 - **BCA**, Ajmer University – 2009 – 61.5%
 - **Languages:** English, Hindi, Marwari
 - **Hobbies:** Staying current with software engineering trends, exploring practical AI tools, contributing to GitHub, and casual gaming.
