

Praveen PK [Laravel Developer 5 yrs]

204 A Padannayil H, Ambedkar Road, Pooyappilly 683522 | 90-488-97-361 | praveeninbox@outlook.com |

About Me

I have a great interest in Coding, Creating, Pursuing, Learning in the field of computer programs or any other machines. Wonderful in listening to all around me, trying to keep the conversation least complicated and connect with others. I learn something new to my knowledge or teach some I know to all my friends and show them the end results.

Experience

SENIOR LARAVEL DEVELOPER | GLOBAL FUTURE WIDE SOFTWARE TECHNOLOGIES| JAN 2021 – JAN 2025

- Started with one CRM application made in Laravel 7, then added many features and migrated to **Laravel 12** now with premium features like **OTP, Whatsapp, Internal Chat, TL Module, Finance Module, Customer Support module** etc.
- End to End API calls with **custom tokenization** with selected domain only access certain API [restricted to IP's whitelisted].
- The latest feature added is Aadhar OTP to authorize the client and create an Invoice accordingly.
- A team of developers, designers, testers, and digital marketing executives helped me in this process.
- All payment gateways were added to this App, and they were changed according to latest updates.

LARAVEL DEVELOPER | VANDALAY BUSINESS SOLUTION PVT LTD | JULY 2019 – JAN 2021

- All apps needed for certain promotions catered according to the countries.
- Created a unique for of data collection and visualization to the client with charts and progress.
- Create a short URL system for the App in case the promotion goes via text messages.
- Learned docker for better data management for internal office purposes.

E COMMERCE SHOP MANAGER | WUB24 DEUTSCHLAND | JAN 2016 – JAN 2019

- A German company with more than one online shop, where basic PHP and sorting of products is done via server and application.
- Daily order cataloging and coordinating with the dispatch department.
- A group of Intern's was cataloging and photographing each product monthly.
- The application is XT-Commerce, and it has many plugins and custom features.

PHP AND SEO | GLAD TECHNOLOGIES | MARCH 2013 – APR 2015

- Creating tour websites for clients and getting the website promoted on social platforms.
- Occasionally creating ads or offering a targeting group of customers.
- Created one website in Magento for a client and added all products for sale online.
