Results-driven Laravel Developer with over 8 years of experience in PHP backend development, application architecture, and cloud deployment. Skilled in building scalable web applications using Laravel, CodeIgniter, and AWS. Experienced with RESTful APIs, Git workflows, Agile practices, and leading development teams. Committed to delivering maintainable, secure, and high-performance code.

TECHNICAL SKILLS

- Languages & Frameworks: PHP, Laravel, CodeIgniter
- Frontend: HTML5, CSS3, JavaScript, jQuery
- Database: MySQL
- Version Control: Git, Bitbucket
- Project Management Tools: JIRA, Trello, Teamwork
- Testing & Tools: Postman, Swagger
- Cloud & DevOps: AWS (EC2, S3, SES), Ubuntu Server, CI/CD, Docker
- Other: API Integration, Payment Gateway Integration, WhatsApp API, Agile Methodology

PROFESSIONAL EXPERIENCE

John and Smith Solutions, Government Cyberpark, Kozhikode

Sep 2021 - Present

Senior Software Developer / Team Lead

- Led a team of 5 developers in building enterprise applications in Laravel and AWS.
- Designed application architecture, managed database schema, and conducted code reviews.
- Built RESTful APIs and integrated third-party APIs (including WhatsApp, payment gateways).
- Deployed scalable applications using AWS EC2, S3, and SES.
- Managed Agile workflows with daily standups and sprint reviews.
- Mentored junior developers and resolved bugs and optimization issues.

Key Projects:

Healthcare Platform:

- Developed a comprehensive staff scheduling system for home-based care services.
- Built role-based portals for clients and care units (care homes) with secure logins.
- Implemented full HR functionalities: staff profiles, payroll, timesheets, invoicing, and attendance tracking.
- Designed a transportation management module for planning and tracking staff travel to client locations.

- Created dynamic dashboards tailored for clients and care units, providing real-time operational insights.
- Built a robust admin panel for global settings, service configurations, shift assignment, and overall system monitoring.

HRMS System:

- Features for leave tracking, payroll processing, and employee progress monitoring.

Otwo Designs, Kozhikode

July 2019 - 2021

Senior PHP Developer

- Developed dynamic web applications using CodeIgniter and custom PHP.
- Integrated secure payment gateways and optimized backend performance.
- Communicated with clients for updates, debugging, and deployment.
- Performed live server deployments with zero downtime.

Key Projects

Multi-vendor E-commerce Platform:

- Vendor dashboards, grocery item listing, cart management, and API-based checkout.

Education Management System:

- Attendance, exam modules, admin/student logins, and reporting tools.

Adox Solutions Pvt Ltd, Calicut

Jun 2016 - 2019

Senior PHP Developer

- Developed full-stack applications using PHP and CodeIgniter.
- Focused on backend performance, SQL optimization, and API handling.
- Worked closely with frontend developers to ensure seamless UI integration.

Key Projects:

School Management App:

- Notifications, exam scheduling, result processing, and mobile integration.

Inventory Management Software:

- Designed for small retailers to track inventory, purchase, and sales.

ACADEMIC QUALIFICATIONS

Diploma in Computer Science – Govt. Polytechnic College, Meppadi

2012-2015

Higher Secondary Education (Plus Two) – Govt. Higher Secondary School Valiyapoyil, Kattangal

2009-2011

LANGUAGES

ENGLISH, MALAYALAM, HINDI

PERSONAL ATTRIBUTES

- Strong problem-solving and communication skills
- Self-motivated, adaptable, and proactive
- Passionate about emerging technologies and continuous learning
