

Prosenjit Chowdhury

Senior Software Engineer

Contact Info:

Mail ID: mail4prosenjit71177@gmail.com

Phone: 7596-863986 / 8017818379

Present Address: 6C, Krishti Vista, Kalipark, Bablatala, Gopalpur I, Kolkata, West Bengal 700136

HIGHLIGHTS

- Total **12 years of experience**
- **Portal:** E-com Application Admin, E-com Product Base Website, App Admin, **LMS, CMS (Frost, LOR, Quad) (continue)**
- **Domain:** E-Com, Food Delivery, Still & Metal, **ED Tech (continue)**.
- C, C++, Visual Basic, PHP, PHP Framework(Laravel, V4 to V10) NodeJS, JavaScript, JQuery, TypeScript, Python, GraphQL, (React, Vue, Angular, Entry Level).
- Good understanding of Manual Testing, Unit Testing, Application Testing.
- Basic concept of AWS cloud architecture.
- Extensive experience in MySQL, NoSQL (MongoDB).
- Good Knowledge in Kibana , Elasticsearch & GraphQL
- Sound knowledge of Software Development Life Cycle (SDLC), Agile methodology (SCRUM) & Kanban.
- Good exposure managing and leading experience of 10+ members of the technical team.
- Good analytical ability to define the strategies to improve the performance of process, application.
- Providing technical support for enhancing performance at back-end & front-end
- Undertaking development & testing, defect management for software applications; conducting reviews of codes & test cases and analyzing change requests/ enhancements.

TECHNOLOGIES

Back-end Technologies: Core PHP, PHP Framework(Laravel, V4 to V10), NodeJS, Python, C, C++, Visual Basic.

APP Security: OAuth 2. 0, JWT token

Front-end Technologies: Angular, Javascript, jQuery, Html5, (React, Vue, Angular, Basic development)

Design Pattern: MVC, Factory, Repository

Cloud Technologies: AWS cloud (basic)

Unit Test Framework: PHPUnit, Laravel Unit Framework, React Testing LIB (basic), Angular Unit (basic), Manual Testing.

Tools: Git, Tortoise Git

Platforms: Windows, Linux , Docker Containerization.

Database: MYSQL Server, MongoDB, Redis DB, GraphQL.

Software Development Methodologies and Tools: Agile scrum, ,Kanban & Waterfall

DevOps: Jenkins CI\CD process, AWS DevOps

Code Quality tools: SonarQube.

PROJECT EXPERIENCE

Employer: LearningMate Solutions Pvt Ltd

DEC 2021 – Till date

Role: Seiner Software Engineer

Responsibilities:

- **Implementing the LM Product (FROST, LOR & QUAD) and customize the same for the as per requirement of the Client.**
- Understanding the requirement gathering and design phase & Partly involved in Customize Architect which need to be implemented for Client.
- Detailed Analysis & Design document and Technical document for the modules identified
- Executing the project with Agile methodology.

- Project & Product installation for the new members of the projects.
- Design New, Re-design and Modification the API for the Frost, LOR and Quad for as per Client need.
- Performing peer review and code reviews
- Providing best practices (**Laravel Best practices**) to be followed while executing the projects
- Providing builds using Jenkins environment.

Project (MHU03, MHU06, MHU11, MHU16)::

- Working as a Full Stack Developer as per project requirement.
- Design New, Re-design and Modification the API for the Frost, LOR and Quad for as per Client need.
- Customization of the **FROST PRODUCT API (Laravel)** and **LOR API (Laravel)** and implementation the same for Front end (**Angular**).
- Customization of the **QUAD API (Core PHP & Customize LM framework)**

Project (ALI06)::

- Working as a Full Stack Developer as per project requirement.
- Design New, Re-design and Modify the API for the **FROST PRODUCT (Laravel)** as per Client need.
- TestCase update for the FrontEnd application, Unit Testing the same, Total application testing, ect.

Project (LMPE2)::

- Working as a Backend Developer.
- Design New, Re-design and Modify the API for the **FROST PRODUCT (Laravel)** as per Product need.
- Test Case and Unit Testing, Test Case writing for the application.

Project (FMS02)::

- Working as a Fullstack Developer.
- Define the Architecture, Workflow, DB Design.
- Define the Frontend architecture, UX Design and View as per user POV.
- Design the REST API, API Documentation.
- Design New, Re-design and Modify the API for the **FMS (Freelancer Management System (Laravel))** as per Product need.
- Test Case and Unit Testing, Test Case writing for the application.

Project (PHN64)::

- Working as a Backend Developer.
- Design New, Re-design and Modify the API for the **QUAD** as per Product need (**Product MVC Structure Core-PHP**).
- Import and Export New Question Template for **ED Migration**.
- Test Case and Unit Testing, Test Case writing for the application.

Employer: Matrix Media Solution Pvt Ltd

2018 to 2021

Role: Senior Software Developer

Project (<https://www.aludecor.com/>)::

- Develop the Back-end part with **MySQL & Laravel, Laravel FrontEnd**.
- This is a Mobile Application Back-end for API Design and development.
- Develop & Design Admin Application.
- Backend development or Admin Analytics Application.
- Project Flow Documentation.
- API Flow Documentation.
- UnitTesting, Application Testing.

Project ([GoodyforFoody](#))::

- Develop Back-end parts with **NodeJS, NOSql Format, MongoDB**.
- Backend of Complete tracking of food delivery system.
- Mobile Application Back-end for API Design and development
- Develop & Design Admin Application.
- Backend development or Admin Analytics Application.
- Project Flow Documentation.
- API Flow Documentation.
- UnitTesting, Application Testing.

Project (<https://www.decorkiosk.com/login>)::

- Develop the Back-end part with **MySQL & Laravel**.
- Develop the Front End Application in **Angular 10**
- API Integration.
- Develop & Design Admin Application.

- Backend development or Admin Analytics Application.
- Project Flow Documentation.
- API Flow Documentation.
- Unit Testing, Application Testing.

Project (<https://www.velospot.info/customer/public/>)::

- Develop the Back-end part with **MySQL & Laravel, Laravel FrontEnd.**
- Develop & Design Admin Application.
- Backend development or Admin Analytics Application.
- **Multilingual Application for developing site, Language Customization.**
- Project Flow Documentation.
- API Flow Documentation.
- Unit Testing, Application Testing.

Project (<https://www.leenalkhair.com/ar>)::

- Develop the Back-end part with **MySQL & Laravel, Laravel FrontEnd.**
- Mobile Application Back-end for API Design and development.
- Develop & Design Admin Application.
- Backend development or Admin Analytics Application.
- **Multilingual Application for developing site, Language Customization.**
- Project Flow Documentation.
- API Flow Documentation.
- Unit Testing, Application Testing.

Project (<https://bell-apac.com/>)::

- Develop the Back-end part with **MySQL & Laravel, Laravel FrontEnd.**
- Mobile Application Back-end for API Design and development.
- Develop & Design Admin Application.
- Backend development or Admin Analytics Application.
- Project Flow Documentation.
- API Flow Documentation.
- Unit Testing, Application Testing.

Senior Web Developer

Acuity Software Services Pvt.Ltd

Feb 2018 – March 2019 Continue at Present, Kolkata Area, India
