

RAVI MOURYA

Associate Software Developer

Utilize my skills and abilities in the organization and pursue a position that offers me professional growth while being innovative and flexible. Also to work in challenging and dynamic environments that will keep adding value to me and simultaneously contribute to the growth and success of the organization that I represent.

SUMMARY

- Completed 35+ projects
- DevOps (CI/CD, Docker, Git, Linux)
- AI Agenting & Prompt Engineering
- Software Architecture & System Design
- Secure Application Development (CDAC & eMudhra digital signatures)
- Database Design & Optimisation (MySQL, MongoDB, SQL)
- SaaS, e-Governance, EdTech, eCommerce, and Utility Solutions
- Team Leadership & Mentoring
- Client Communication & Project Management
- Problem Solving, Analytical Thinking, and Productivity Optimisation

PROFESSIONAL EXPERIENCE

Company : Innomise Private Ltd.
Designation : Sr. Software Developer
DOJ : 11 July 2023 to present

Company : Mac Fos Ltd.
Designation : PHP Web Developer
DOJ : 06 Sep 2022 to 10 July 2023.

Freelancing work
Experience : 8 months
Date : 10-Dec-2021 to Aug-2022

Company : WhiteBoard Software and Hardware Solution.
Designation : Sr. Web Developer
DOJ : 1 May 2019 to 20 Nov 2021.

WORK SUMMARY:

Sr. Software Developer

Innomise Private LTD

July 11, 2023 – present

- **Server Management:** Handling server configurations, performance tuning, and resource optimization
 - **Feature Development:** Building scalable and maintainable features and functionalities for complex applications.
 - **Database Design:** Designing efficient and normalized database structures to support business logic.
 - **Code Optimization:** Writing clean, reusable code and improving performance across backend and frontend modules.
 - **SDLC Implementation:** Streamlining the software development process by effectively applying SDLC principles.
 - **API Integration:** Integrating third-party services such as **GePNIC**, **SMS gateways**, and **payment gateways**.
 - **Mobile App Design & API Development:** Creating mobile app UI/UX designs and developing backend APIs for seamless functionality
 - Developed and maintained the IWMS (Integrated Work Management System) for civil work management.
 - Created modules for Municipal Corporations, including Conceptual Work, Estimates, E-MB, Schedule-B, Measurement, etc.
-

Full Stack Developer

Macfos Ltd

September 6, 2022 – July 10, 2023

- Worked in the E-commerce domain, focusing on developing WordPress plugins.
 - Managed server configurations and ensured smooth deployment of updates.
 - Participated in the Jira process for effective task management and project tracking.
 - Regularly updated code on the server to ensure smooth operations.
 - Identified development issues, brainstormed solutions, and continually improved through testing and feedback.
-

Senior Web Developer

WhiteBoard Software and Hardware Solutions

May 1, 2019 – November 20, 2021

- Worked on various domains, including E-learning apps, ERP systems, job consultancy services, and dynamic websites.
 - Communicated effectively with clients, ensuring no communication gaps.
 - Delivered project assignments within the agreed time frames.
 - Actively participated in the Jira process for task management and project tracking.
 - Collaborated closely with product owners, testers, and clients to identify necessary features and write functional stories.
 - Identified development issues, brainstormed solutions, and continually improved through testing and feedback.
-

PROJECT SUMMARY:

Project #1: IWMS (Intelligent Work Management System)

Duration: 2 year

Team Size: 6

Technologies: Yii framework, CI3, PHP, PhpMyAdmin, Flutter, JavaScript, AI tools

Domain: Work Management System for Civil

Responsibilities:

- Digital Signature of CDAC and EMUDRA.
 - Developed various modules for the system.
 - Created REST APIs for the app.
 - Designed the app's interface.
 - Managed server configurations and optimizations.
 - Registered SMS templates.
 - Integrated payment gateways.
 - Implemented the system for Pune Municipal Corporation, Vizag Port, Satara, Zilla Parishads, etc.
-

Project #2: robu.in

Duration: 8 months

Team Size: 7

Technologies: WordPress, PhpMyAdmin, React Native, HTML, CSS, JavaScript, Firebase, Kayako

Domain: E-commerce

Responsibilities:

- Developed custom plugins for the website.

- Managed server code.
 - Optimised website performance.
-

Project #3: Jyotish Vishwakosh

Duration: 6 months

Team Size: 4

Technologies: CodeIgniter 3, PhpMyAdmin, Flutter, HTML, CSS, JavaScript, Firebase

Project Features: Kosh, Granth, E-magazine, Kundali, Astroshop, Daily Panchang, etc.

Responsibilities:

- Gathered and analysed client requirements.
 - Managed team tasks and assignments.
 - Designed app interface using XD.
 - Developed app and database code.
 - Created APIs and an admin panel.
 - Implemented push notifications using OneSignal.
 - Integrated payment gateways.
 - Fixed bugs and implemented new functionalities as per client requirements.
 - Tested and deployed the admin panel and app on the server and the Play Store.
-

Project #4: SKOOL ERP

Duration: 6 months

Team Size: 3

Technologies: CodeIgniter 3, PhpMyAdmin, HTML, CSS, JavaScript

Project Features: Attendance reports, SMS notifications to parents, accounting, schedule management, and content management.

Responsibilities:

- Managed team tasks and assignments.
 - Gathered and analysed client requirements.
 - Developed and designed a database and code.
 - Fixed bugs and implemented new functionalities as per client requirements.
 - Tested and deployed the system.
-

Project #5: SelectoJob Consultancy

Duration: 3 months

Team Size: 4

Technologies: CI3, PhpMyAdmin, HTML, CSS, JavaScript, PHP

Project Features: Admin panel, job recruiter, and job seeker functionalities.

Responsibilities:

- Managed team tasks and assignments.
 - Gathered and analysed client requirements.
 - Developed and designed a database and code.
 - Fixed bugs and implemented new functionalities as per client requirements.
 - Tested and deployed the system.
-

Project #6: Samir Enterprises

Duration: 1.5 months

Team Size: 4

Technologies: CI3, PhpMyAdmin, HTML, CSS, JavaScript

Project Features: Raw material management, cutting material, worker salaries, stock management, invoice generation.

Responsibilities:

- Gathered and analyzed client requirements.
- Managed team tasks and assignments.
- Developed and designed database and code.
- Fixed bugs and implemented new functionalities as per client requirements.
- Tested and deployed the system on the server.

EDUCATION

- Python Cetification from NIT, Hyderabad(2019)
- PHP Certification from NIT, Hyderabad(2018)

- Shri Shivaji Science College, Nagpur— B.C.A (2018)
- S.K Porwal College , Kamptee — HSC (2015)
- Shree Narayana vidyalaya , kanhan — SSC(2013)

TECHNICAL SKILLS

Category	Skills & Tools
Languages	PHP (Core & Laravel), CodeIgniter, JavaScript (ES6+), TypeScript, C++, Python, Dart
Web Technologies	HTML5, CSS3, JavaScript, React.js, MVC, jQuery, JSON, AJAX, Bootstrap, Tailwind
Mobile/Hybrid	Flutter with dart, Firebase
Databases	MySQL, MongoDB, Firebase Realtime DB, SQLite
DevOps	Version Control: Git, GitHub, GitLab CI/CD: Jenkins, GitLab CI, GitHub Actions Containers: Docker, Kubernetes Cloud: AWS (EC2, S3, Lambda), Azure IaC: Terraform, AWS CloudFormation Monitoring & Logs: Prometheus, Grafana, ELK Stack, CloudWatch Automation: Ansible, Bash, Python Security: AWS IAM, HashiCorp Vault
Tools & Utilities	Postman, Figma, VS Code, Apache, Nginx, XAMPP, FileZilla, Putty, WinSCP
API Experience	Integration with GePNIC, SMS Gateways, Payment Gateways (Razorpay, Paytm), Emudhra, CDAC
Software Design	Designing RESTful APIs, scalable backend architecture, SDLC & Agile methodology
Other Skills	Computer hardware troubleshooting, LAN configuration, Event/Competition organizer
Soft Skills	Team Leadership, Client Communication, Project Management, Mentorship, Problem-solving

STRENGTH

- Good listener.
- Strong willpower.
- Ready for learning.
- Pantheistic, Loyal, and Energetic.

PERSONAL DETAILS

Name : Ravi Amarjeet Mourya
Date of Birth : 19 April 1998

Gender : Male
Nationality : India
Languages Known : English, Hindi, Marathi
Permanent Address : Kanhan, Tal: Parshioni, Dist: Nagpur
Current Address : Pune.

DECLARATION

I, hereby declare that the information provided herein, by me is true and correct to the best of my knowledge and belief.
