ABOUT ME

Full-Stack Developer with 3+ years of experience designing, developing, and deploying scalable web applications using Laravel, React.js, and Next.js. Strong expertise in backend development, RESTful API architecture, JWT authentication, database design, indexing, and performance optimization, along with modern frontend development using React and component-based architecture. Experienced in building social-commerce platforms, financial systems, CRM applications, and assessment platforms in production environments. Proficient in MySQL, API integration, responsive UI development, and DevOps practices including Linux server management, CI/CD pipelines, deployment automation, and production monitoring. Highly adaptable, quick to learn new technologies, and motivated to work on modern tools and challenging full-stack projects in dynamic environments.
