CAREER OBJECTIVE

Results-driven **Backend Engineer** with 8 + years of experience in **Laravel, PHP, MySQL**, and **API-driven architecture**, now advancing expertise in **Python (Django / Fast API)**. Proven ability to design scalable systems, lead agile teams, and deliver enterprise-grade solutions across healthcare, e-commerce, and SaaS domains. Seeking a **Backend / Python Developer** or **Technical Lead** role to apply multi-stack backend knowledge and leadership for high-impact products.

CORE COMPETENCIES

Languages & Frameworks: Python, Django, FastAPI, Laravel, PHP, JavaScript, MySQL

Backend Expertise: REST API Design & Integration | JWT/OAuth Authentication | Database Modeling | Performance Tuning

Frontend Tools: React JS, Bootstrap, HTML5, jQuery

Project Management: Agile (Scrum / Kanban), Sprint Planning, Client Delivery, Risk & Resource Management

Tools & Platforms: Git, GitHub, Bitbucket, JIRA, Trello, AWS,

Soft Skills: Team Leadership, Problem Solving, Cross-Team Collaboration, Strategic Planning

PROFESSIONAL EXPERIENCE

Reubro International Pvt. Ltd. — Kerala, India

Senior Laravel Developer → Project Manager | *Feb 2022 – Present*

- Designed and managed large-scale **Laravel backend systems** for enterprise clients.
- Led a **6-member cross-functional team**; managed sprint cycles, client coordination, and delivery schedules.
- Architected APIs, optimized database performance, and introduced modular code structures.

Key Achievements:

- Improved API response efficiency by **30 %** via query optimization and caching strategies.
-

Bluemoon Infotech — Kerala, India

Backend Developer (Laravel) | *Sep 2018 – Feb 2022*

- Built RESTful APIs and backend logic for e-commerce and enterprise web applications.
 - Implemented data caching, pagination, and database optimization to boost system performance.
 - Collaborated with UI teams for seamless API integration and performance debugging.
-

VirtualSys Technologies — Kerala, India

Hybrid Mobile App Developer | *May 2018 – Aug 2018*

- Created hybrid mobile applications using **React Native** and **PhoneGap** frameworks.
-

Ecom Developers — Cochin, India

Software Engineer (Full Stack) | *Apr 2014 – Apr 2018*

- Delivered full-stack e-commerce platforms using **PHP**, **MySQL**, and

Bootstrap.

- Integrated payment gateways and third-party APIs for multiple online retail clients.
- Created hybrid mobile applications using **React Native** and **PhoneGap** frameworks.

PROJECT PORTFOLIO

- **Calibration Management Portal** – Laravel + MySQL | Role: PM & Backend Architect.
- **Sandwych Platform** – Laravel + React Native solution for post-treatment patient care.
- **Digital Rx** – Laravel 8 app for pharmaceutical inventory and vendor tracking.
- **Employee Management System (Paytym)** – Internal HRMS built with Laravel + Bootstrap.
- Additional: Classroom App (Flutter), Grand Tourney (PHP), Yokohama (Laravel), 123 Stickers (E-commerce), EventGatekeeper (Hybrid).
