SENIOR SOFTWARE ENGINEER (PHP / LARAVEL) | TECHNICAL LEAD | BACKEND ENGINEER

Senior Software Engineer and Technical Lead with **10+ years of experience designing, developing, and delivering scalable enterprise web applications using PHP and modern MVC frameworks.**

Proven expertise in **backend architecture, REST API development, cloud deployment, database optimization, and Agile team leadership.** Experienced in delivering high-performance systems across industries including **CRM, healthcare, education, and organizational management platforms.**

Strong background in **system architecture, enterprise application development, and cross-functional team collaboration.**

TECHNOLOGY STACK

Backend Development - PHP 7 / PHP 8, Laravel Framework, Yii Framework, Core PHP, MVC Architecture, RESTful API Development, GraphQL, API Integration

Frontend Technologies - HTML5, CSS3, JavaScript, jQuery, AJAX, Responsive Web Design

Databases - MySQL, Microsoft SQL Server (MSSQL), Stored Procedures, Database Design, Query Optimization, Performance Tuning

Cloud, DevOps & Hosting - AWS Cloud Services, Amazon S3 (Object Storage), Amazon SES (Email Services), Docker, Linux Server Administration, aaPanel Server Management, cPanel Hosting Management, CI/CD Deployment

Development Tools - Git, GitHub, Visual Studio Code, Jira, draw.io (System Architecture Diagrams)

AI-Assisted Development - GitHub Copilot, Claude AI, Cline AI Coding Assistant

Documentation & Productivity - Canva (Technical Documentation & Presentations)

PROFESSIONAL EXPERIENCE

IT Project Manager / Technical Lead

Jerobyte Softwares Pvt Ltd - Trichy, Tamil Nadu, India

Nov 2021 - Dec 2025

- Led a **team of 8 developers delivering 10+ enterprise web applications** using PHP and Laravel frameworks.
- Designed **scalable backend architecture and RESTful APIs** supporting web and mobile platforms.
- Implemented **modular MVC architecture** improving maintainability and scalability of applications.
- Optimized database queries and indexing **improving application performance by up to 40%**.
- Designed and implemented **20+ REST APIs** enabling integration with third-party systems and services.
- Managed **cloud-based deployments using AWS including S3 for storage and SES for transactional email delivery**.
- Configured and maintained production servers using **Linux, aaPanel, and cPanel hosting environments**.
- Conducted **code reviews, architecture planning sessions, and developer mentoring**.
- Managed Agile workflows including **sprint planning, backlog management, and release coordination**.
- Created system architecture diagrams using **draw.io** to document technical designs.
- Utilized **AI-assisted development tools such as GitHub Copilot, Claude, and Cline** to improve development productivity.

Senior Software Developer

Microchip Solutions - Trichy, Tamil Nadu, India

2018 - 2021

- Developed scalable web applications using **Core PHP and REST API architecture**.
- Designed and implemented **database schemas, stored procedures, and optimized SQL queries**.
- Integrated third-party APIs including **payment gateways and external enterprise systems**.
- Collaborated with frontend teams using **React-based UI applications**.

- Improved system performance through **query optimization and caching strategies**.
-

Software Developer

A for Admin Technologies - Trichy, Tamil Nadu, India

2015 - 2018

- Developed dynamic web applications using **PHP, MySQL, JavaScript, and AJAX**.
 - Built responsive user interfaces using **HTML5, CSS3, and jQuery**.
 - Implemented CMS solutions using **WordPress and custom PHP frameworks**.
 - Assisted with deployment and server configuration on **Linux hosting environments**.
-

KEY PROJECTS

CRM with Hybrid ERP

Technology: Laravel, MySQL, REST API

- Designed CRM platform for **sales management, inventory tracking, and analytics dashboards**.
 - Developed REST APIs enabling **mobile integration and external system connectivity**.
 - Optimized backend architecture for **large transactional data processing**.
-

Hospital Management System

Technology: PHP MVC, MySQL

- Developed modules for **patient management, appointments, billing, and reporting systems**.
 - Implemented **secure authentication and role-based access control**.
 - Integrated healthcare data services using **API-driven architecture**.
-

District Educational Management System

Technology: PHP MVC, MySQL

- Developed centralized system for **student records, staff administration, and institutional reporting**.
 - Designed scalable database architecture supporting **large educational organizations**.
-

Rotary Club Management System

Technology: Core PHP MVC, MySQL, JavaScript, AJAX

- Designed and developed **district-level Rotary Club Management System** using custom MVC architecture.
 - Built centralized administration platform allowing **district administrators to manage multiple clubs**.
 - Implemented **role-based access control for district and club administrators**.
 - Developed modules for **club information management, member management, project tracking, and budget management**.
 - Enabled clubs to maintain **projects, financial records, and event information** through dedicated dashboards.
 - Designed scalable database structure supporting **multi-club operations and large member datasets**.
-

EDUCATION

Master of Science (M.Sc.) - Information Technology
Christhuraj College, Trichy
Bharathidasan University
2013 - 2015

KEY ACHIEVEMENTS

- Delivered **10+ enterprise web applications** across multiple industries.
 - Improved application performance by **up to 40% through backend and database optimization**.
 - Designed **20+ REST APIs powering enterprise platforms**.
 - Successfully led Agile development teams delivering projects on schedule.
-

ADDITIONAL INFORMATION

Total Experience: **10+ Years**

Target Roles: **Senior Software Engineer / Technical Lead / Backend Engineer**

Availability: Open to Opportunities

Willing to Relocate: India / UAE / International
