Professional Summary

Results-driven PHP Developer with 5+ years of experience designing and optimizing scalable web applications. Proficient in Laravel, Symfony, and CodeIgniter with strong expertise in MySQL, RESTful APIs, and front-end integration. Experienced in writing clean, efficient, maintainable code and collaborating with cross-functional teams to deliver high-quality solutions. Passionate about using new technologies to drive innovation.

Technical Skills

Languages & Core: PHP (Core, OOP, MVC), WordPress

Frameworks: Laravel, CodeIgniter, Symfony

Databases: MySQL

APIs: RESTful API Development

Version Control: Git, GitHub, SVN, Bitbucket

Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap5

Tools: Atlassian Jira, Postman, WinSCP, Bitvise, Wamp, Xampp

Work Experience

PHP Developer

i-worxs by Palnar | May 2023 – Present

- Developed scalable applications using PHP, Laravel & Symfony; reduced server load by 30%.
- Optimized MySQL queries and implemented efficient DB structures.
- Integrated third-party APIs (country codes, maps) for enhanced features.
- Built custom APIs in WordPress for Laravel integration.
- Implemented cron jobs for syncing, reporting, and email notifications.
- Added QR/barcode scanning in Symfony.
- Led junior developers in coding standards.
- Collaborated with UI/UX designers for interface enhancements.

Jr. Software Developer

YarabTechnologiesPvt Ltd | Sept 2021 – Apr 2023

- Developed dynamic PHP and CodeIgniter applications.
- Integrated Barclay's Payment API for secure online payments.
- Built reusable UI with HTML, CSS3, and Bootstrap 5.
- Used Bitbucket for version control and Jira for task management.

Frontend Developer Trainee

RGC Dynamics | July 2021 – Aug 2021

- Created responsive front-end templates using HTML, CSS3, and Bootstrap 5.

Computer Engineer Apprentice

ICAR-IISR Calicut | Sept 2019 – Dec 2020

- Supported technical operations and site handling at a research center.
 - Assisted in troubleshooting and system performance tasks.
 - Handled data management, documentation, and admin support.
-

Projects

CRM System for Solar Company

Description: Developed a comprehensive Customer Relationship Management (CRM) system to streamline lead tracking, customer interactions, and sales automation. Implemented AJAX-based dynamic forms for a seamless user experience.

Key Contributions:

- Designed and optimized MySQL queries for faster data retrieval and performance improvements.
- Developed custom CRM modules to enhance workflow automation.
- Improved frontend interactivity using jQuery and AJAX.

Technologies Used: PHP, jQuery, AJAX, MySQL, HTML, CSS, JavaScript.

Work Management Platform

Description: Designed and developed a task and project management system to track employee assignments, deadlines, and work progress.

Key Contributions:

- Enhanced database performance with efficient indexing and query optimization.
- Integrated real-time updates using AJAX for better workflow visibility.
- Developed role-based access control for better security and task management.

Technologies Used: PHP, jQuery, AJAX, MySQL, HTML, CSS, JavaScript.

Sales Analytics & Reporting

Description: Created interactive sales charts and reports to provide business insights using Highcharts.

Key Contributions:

- Developed custom dashboards to visualize key metrics like revenue, conversion rates, and regional performance.
- Implemented real-time data processing for faster data handling.
- Optimized query performance for seamless analytics and report generation.

Technologies Used: PHP, Highcharts, jQuery, MySQL, AJAX, JavaScript.

Education

Diploma in Computer Engineering

2018

- Internship: PHP and UI Development, Python
