Professional Summary

Results-driven **Tech Lead | Senior Software Engineer | Scrum Master** with **8+ years** of experience in **software development, team leadership, and Agile project management**. Skilled in leading cross-functional teams, implementing **Scrum frameworks**, and driving digital transformation. Expertise in **full-stack development, microservices architecture**. Passionate about delivering scalable, high-performance solutions and optimizing engineering workflows.

Core Skills & Expertise

- ✓ **Agile & Scrum Methodologies** (Scrum, Kanban, SAFe)
- ✓ **Project Management & Leadership** (Sprint Planning, Standups, Retrospectives)
- ✓ **Full-Stack Development** (React, Node.js, PHP, Laravel, CodeIgniter)
- ✓ **Software Architecture & Design Patterns** (Microservices, Monolithic, MVC)
- ✓ **API Development & Integration** (REST, GraphQL)
- ✓ **DevOps & CI/CD** (GitHub Actions)
- ✓ **Version Control & Collaboration** (Git, GitHub, Bitbucket, GitLab)
- ✓ **Database Management** (MySQL)
- ✓ **Testing & Automation** (Selenium)
- ✓ **Performance Optimization & Security** (Code Reviews, Load Balancing)
- ✓ **Stakeholder Communication & Client Interaction**
- ✓ **Technical Documentation & Process Improvement**

Professional Experience

Senior Software Engineer | StinSoft Technologies (Dec 2023 - Present)

- Spearheaded Agile transformation by implementing **Scrum methodologies**, improving sprint efficiency.
- Led a team of developers to deliver **high-performance, scalable applications**.
- Developed and optimized **custom plugins/extensions**, enhancing system functionalities by **30%**.
- Improved system **security and compliance** with industry best practices.

Senior Software Engineer | Enoah iSolution (Jun 2023 - Dec 2023)

- Delivered enterprise-grade **software solutions** that improved business **efficiency and automation**
- Integrated third-party **APIs (payment gateways, CRMs, analytics tools)**, enhancing application capabilities.
- Facilitated **code reviews and mentoring sess**

Senior Software Engineer | Mahindra First Choice Wheels Ltd. (Jul 2021 - May 2023)

- Designed and implemented **scalable microservices**, enhancing platform **reliability by 40%**.
- Collaborated with **cross-functional teams** to align software development with business goals.
- Introduced **CI/CD pipelines**, reducing deployment time by **50%**.

Senior PHP Developer | Thales (Apr 2019 - Jan 2020)

- Developed and maintained **secure, high-availability applications** for critical data management.
- Conducted **vulnerability assessments and security patching** to comply with industry standards.
- Refactored codebases to follow **best practices (SOLID, DRY, KISS principles)**

Senior PHP Developer | Qruize Inc. (Apr 2018 - Apr 2019)

- Automated software testing processes, increasing efficiency by 40%.
- Designed and implemented **scalable web solutions** using modern frameworks.
- Provided **technical training and mentorship** to junior developers

PHP Developer | InQ Technologies (Jul 2016 - Apr 2018)

- Developed and optimized **business process automation tools** to enhance productivity.
- Applied structured **coding and security best practices** for robust application development.
- Conducted **performance tuning and database optimization**.

Education

Master of Computer Applications, Rajalakshmi Engineering College

06/2012 - 04/2015

Bachelor of Science, Sri Sankara Arts & Science College

06/2009 - 04/2012

Certifications & Training

- Certified Scrum Master (CSM) *(In Progress)*
- Agile Project Management Certification *(In Progress)*

Additional Information

- Passionate about **mentoring and upskilling** development teams.
- Strong advocate for **Agile best practices, DevOps, and process automation**.
- Contributor to **open-source projects and technology communities**.
- Active participant in **tech conferences, hackathons, and webinars** to stay updated with industry trends.
- Experience in **cross-cultural team management** and working with globally distributed teams
