OBJECTIVE

Software Engineer with 4 Years 9 Months of experience in designing, developing, and implementing scalable and user-friendly web applications. Experienced in translating business requirements into efficient technical solutions with strong problem-solving and analytical skills. Seeking a challenging position in a growth-oriented organization where I can utilize my knowledge and technical expertise to contribute effectively to organizational success.

WORK EXPERIENCE

Software Engineer , <i>Brahmanet IT Solutions</i>	08/12/2022 – 18/03/2026 Kochi
• Developed and customized Vtiger CRM modules, including module creation, field additions, and layout design. • Automated workflows and validations using event handlers, cron jobs, and custom PHP scripts. • Extended Vtiger core classes (e.g., Vtiger_Record_Model, Vtiger_Module_Model) to implement custom business logic. • Created and optimized Vtiger database schema, ensuring data integrity across modules. • Developed custom actions, API endpoints, and integrated external services using REST APIs. • Customized and extended CRM systems based on business requirements. • Designed, developed, and maintained scalable backend systems using PHP (Laravel) following MVC architecture. • Built and maintained RESTful APIs for web applications and service-based platforms. • Developed complex backend logic for vendor–customer workflows, ensuring data consistency and business rule enforcement. • Designed and optimized MySQL databases, improving query performance and reducing response time. • Integrated third-party APIs and external services for seamless system communication. • Implemented token-based authentication (JWT/API tokens) for secure API communication. • Managed deployment and production environments, ensuring system reliability and availability. • Identified and resolved production issues, minimizing downtime and improving stability. • Performed API testing using Postman to validate functionality and performance. • Collaborated with frontend teams for seamless API integration. • Managed code using Git, including branching, merging, and version control. • Participated in code reviews and mentored junior developers.	

Software Engineer, WebStorm Pvt Ltd - Hands-on experience in developing backend Web APIs using C# .NET Framework. - Proficient in working with PostgreSQL database for efficient data storage, retrieval, and performance optimization. - Strong expertise in using Microsoft Visual Studio and the Microsoft .NET Framework for application development and debugging. - Experience in building responsive and dynamic user interfaces using React.js. - Involved in designing and implementing end-to-end solutions integrating backend APIs with frontend components.	01/07/2022 – 24/11/2022 Bengaluru
Software Engineer, Softronics - Developed web applications using PHP Laravel. - Built RESTful APIs. - Designed database schemas and optimized SQL queries. - Implemented authentication and role-based access in Django applications. - Managed backend databases including SQLite and SQL. - Maintained source code and workflows using Git.	05/07/2021 – 11/06/2022 Kerala
Software Intern, Futura Labs - Developed responsive and user-friendly front-end web applications using HTML5 and CSS3. - Built and maintained web applications using Python (Django) and PHP frameworks. - Worked with SQL databases for data storage, retrieval, and optimization.	01/03/2021 – 01/06/2021 Kozhikode

EDUCATION QUALIFICATION

Master of Computer Applications, <i>Amal Jyothy College of Engineering, Kanjirapally</i> CGPA 8.5	2019 – 2021
Bachelor of Computer Applications, <i>SAS SNDP Yogam College, Konni Pathanamthitta</i> CGPA 6.74	2016 – 2019
Plus Two Higher Secondary Education, GHSS thykavu Pathanamthitta Kerala 81.5	2014 – 2016
Tenth Education, <i>Rose Dale Residential Senior Secondary School Chandanapally Pathanamthitta</i> - CBSE Syllabus 8.4	2012 – 2014

TECHNICAL SKILLS

Backend Frameworks

- PYTHON | DJANGO
- C#
- PHP | Laravel
- .NET

Databases

SQLite | MySQL | PostgreSQL

Frontend & Web

- React JS
- JavaScript | HTML | CSS | Bootstrsp

ACHIEVEMENTS

Student Police Cadet

National Service Scheme

Aptis Certificate ASAP, British Council, *British Council*

Projects

Takeano CRM System, *Tech Stack: PHP, Laravel, Vtiger CRM, MySQL*

- Developed and customized CRM system for managing vendor and customer workflows.
- Implemented modules for: Customer and vendor management, Service tracking and workflow automation.
- Integrated CRM with backend APIs for real-time data synchronization.
- Enhanced system performance and usability through custom backend solutions.

2ndChanceDogs, *WordPress (Frontend), Python (Django), Django REST Framework, MySQL*

- Developed and maintained backend services using Python (Django).
- Built RESTful APIs using Django REST Framework (DRF) for data handling and system operations.
- Integrated WordPress frontend with Django backend via API communication.
- Implemented business logic for user interactions and data processing.
- Designed and optimized database queries for improved performance.
- Ensured secure data handling and API authentication mechanisms.

OnlineProperties, *Tech Stack: PHP (Laravel), MySQL*

- Developed backend modules for a property management platform.
- Designed APIs for handling: Property listings, User interactions, Data management workflows.
- Ensured scalability and efficient database operations.
- Improved system performance through query optimization and structured backend design.

AGL Telco Energy Project, *Tech Stack: PHP (Laravel), API Integration*

- Contributed to backend development and system integration tasks.
- Built and managed API integrations with external services.
- Worked on data processing and service communication workflows.
- Ensured backend system reliability and performance in a production environment.

STRENGTH

Core Strengths

- Communication Skill
- Leadership mindset
- Quick learning
- Problem solving
- Flexibility
