SUMMARY

I have 2 years of experience in Software Development, building clean and scalable web applications using Laravel and REST APIs. Focused on performance, security, and building reliable backend systems with good user experience.

EXPERIENCE

Dotwibe

Nov. 2024 – Present

Software Developer

Ernakulam, Aluva

- Developed dynamic, CMS-driven website using Laravel and converted static HTML/CSS into fully functional pages.
- Implemented HotelBeds APIs (Availability, Content, Booking) using PHP in a travel project, handling full third-party API integration and testing.
- Created cart and payment features for a food delivery platform using Laravel backend and React frontend.
- Delivered a full Strapi + Next.js Website, building the backend CMS and integrating it with a dynamic, SEO-optimized frontend
- Built RESTful APIs with secure authentication and scalable backend architecture for web and mobile applications.

medQ

Mar. 2024 – Nov. 2024

Laravel Developer

Cyberpark, Kozhikode

- Used the Blade templating system to create dynamic, user-friendly web pages.
- Developed custom web applications using Laravel following MVC architecture for improved performance and maintainability.
- Developed APIs that enabled integrations with external systems and services.
