Completed an intensive **4-month training program** covering networking fundamentals, routing & switching, IP addressing, subnetting, VLANs, and basic network security.

LANGUAGES

English – Professional Proficiency

Malayalam – Native Proficiency

Hindi – Reading and Writing Proficiency

PROJECTS

Real Estate CRM & Lead Management System

Freelance / 2025

- Developed a full-scale CRM platform for managing leads, agents, properties, customers, and follow-up workflows using Laravel.
- Implemented role-based access control for Admin, Manager, and Agent with secure permissions.
- Built daily agent activity logs including calls, messages, meetings, site visits, and lead conversions.
- Integrated AJAX-powered DataTables with advanced filters, search, pagination, and Excel exports.
- Designed performance dashboards, reminders, and automated notification workflows.

Food Delivery Platform – Complete System

2025

- Built a complete food delivery system including admin panel, customer management, order processing, and delivery workflows.
- Developed driver stock management to track extra products given for on-the-go sales.
- Implemented sales, returns, missing item tracking, and daily reconciliation reports.
- Created dashboards with summaries, filters, and automated activity logs for operational monitoring.

SparrowBell – Lead Generator & Management Platform

2025

- Developing an end-to-end lead generation and management system with web and mobile support.
- Built vendor and member mobile applications integrated with a centralized Laravel backend.
- Implemented commission management logic for members and vendors, including district-wise commission distribution for public leads.
- Designed intelligent lead assignment workflows based on vendor, member, and district rules.
- Integrated OTP-based public lead login, lead tracking, notifications, and payout audit logs.

SKU Generator & Baselinker Integration

2025

- Built an automated multi-company SKU generation engine with category, brand, color, and size-based logic.
- Integrated Baselinker API for product synchronization with job-wise logging and duplicate SKU detection.
- Handled bulk product sync operations with success, skipped, and failure tracking.
- Developed admin panels to manage short codes, mappings, and SKU rules dynamically.

Mobile API Development

2025

- Designed and developed secure REST APIs in Laravel to support Android and iOS mobile applications.
- Implemented authentication, role-based permissions, pagination, and optimized JSON responses.
- Ensured scalable API architecture with proper validation, logging, and error handling.

LEADERSHIP / EXTRACURRICULAR

Active Volunteer

2019 – 2022

National Service Scheme (NSS), Safa College of Arts & Science

Kerala, India

- Participated in social outreach programs, campus activities, and community development initiatives.
- Worked closely with teams to execute events, awareness drives, and volunteer activities.

Project Coordinator

2022

Academic Project Team, Safa College of Arts & Science

Kerala, India

- Led a team of four and managed task allocation, planning, and project documentation.
- Ensured smooth execution of the project with timely reviews and collaborative development.

Team Player

2017

Subroto Cup Football Tournament, GHSS Ezhur

Kerala, India

- Represented the school in the Subroto Cup sub-district football tournament with strong teamwork and discipline.
