- Skilled in developing and consuming RESTful APIs and web services.
- Experienced in system deployments, SSL configuration, and server management across various environments.
- Proven ability to provide end-user support, bug resolution, and system training.
- Hands-on experience with UI prototyping using Figma.
- Proficient in front-end technologies including HTML5, CSS3, JavaScript, and jQuery.

Technical Skills

PHP Laravel React JS MySQL JavaScript HTML5 CSS3 API Development Oracle SQL Linux

Work Experience

Feb 2014 - Dec 2025

Deputy Manager - Software Development

Suguna Foods Pvt. Ltd

Managed and led multiple development projects across the full project life cycle; Handled system deployments and SSL setup across multiple server environments; Acted as primary support contact for end-users, managing bug resolution and system training.

- Spearheaded full-stack development projects utilizing Laravel, CodeIgniter, and Core PHP to enhance internal applications and streamline business operations.
- Architected and implemented robust database solutions leveraging Oracle and MySQL, ensuring data integrity and optimal performance.
- Orchestrated system deployments across diverse server environments, including SSL configuration, to maintain secure and reliable application access.
- Provided comprehensive end-user support by effectively resolving bugs and delivering tailored system training programs, enhancing user proficiency and satisfaction.

Achievements:

- Improved operational efficiency significantly through development and maintenance of internal applications utilizing Laravel, CodeIgniter, Core PHP, Oracle and MySQL.
- Enhanced application security and reliability by overseeing system deployments and SSL setup across diverse server environments.
- Increased user satisfaction through bug resolution and comprehensive system training.

Dec 2012 - Feb 2014

Senior Software Developer

Ragaventera Designs

Developed web applications for Canadian clients using PHP, MySQL, HTML, CSS, JavaScript, jQuery, and AJAX.

- Developed web applications for Canadian clients, utilizing PHP, MySQL, HTML, CSS, JavaScript, jQuery, and AJAX.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement web-based applications.
- Ensured code quality and adherence to best practices through code reviews and testing.

Achievements:

- Successfully delivered web applications to Canadian clients, meeting project requirements and timelines.
- Contributed to improving code quality and maintainability through rigorous code reviews.

May 2010 - Nov 2012

Software Engineer

Master Mind Solutions

Contributed to projects for US and Canadian clients; built robust web applications using PHP, MySQL, HTML, CSS, JavaScript, jQuery, and AJAX.

- Developed robust web applications for US and Canadian clients, employing PHP, MySQL, HTML, CSS, JavaScript, and jQuery.
- Contributed to all phases of the software development lifecycle, from requirements gathering to deployment and maintenance.
- Collaborated with cross-functional teams to deliver high-quality software solutions within specified timelines.

Achievements:

- Successfully contributed to projects for US and Canadian clients by building robust web applications using PHP, MySQL, HTML, CSS, JavaScript, and jQuery.
- Enhanced application performance through code optimization techniques.

Education

MCA

IGNOU, Indira Gandhi National Open University
(2007 - 2010)

BSC

PSG CAS, Coimbatore
(2003 - 2006)

Skills

Core Competencies: Full-Stack Development, Software Architecture Design, Database Management, Project Lifecycle Management, API Integration

Soft Skills: Leadership, Communication, Problem-solving, Teamwork, Adaptability

Hobbies

Software Development, Web Design, Open Source, Tech Blogs

Languages

English, Tamil
