

SIVA KRISHNA ARAVAPALLI

S/o Srinivasa Rao Aravapalli · Phone:8555982943

Email: sivakrishnaaravapalli@gmail.com

Backend-focused full stack software developer with 3+ years of experience in CodeIgniter and Laravel and vue.js building RESTful APIs, managing change requests, and implementing approval workflows. Skilled in automation, CI/CD, database management, and collaborating with cross-functional teams.

EMPLOYMENT HISTORY

Latinem Private Limited

Designation: PHP Developer

Years of Experience: 1.8 years

Core Skills: PHP, Laravel, CodeIgniter, MVC, RESTful APIs, Vue.js, JavaScript, jQuery, Bootstrap, MySQL, MS SQL Server, PostgreSQL, Git, CI/CD, Server Management, Debugging & Performance Optimization

- Developed, maintained, and enhanced backend systems for multiple enterprise applications, managing change requests, bug fixes, and version upgrades.
- Designed and implemented complex approval workflows and robust business logic, integrating RESTful APIs with internal and external systems such as Salesforce and verloop.
- Handled production support and data operations via remote environments using tools like DBeaver, SSMS, and pgAdmin.
- Implemented automation solutions, including background jobs, schedulers, and call bots, to improve operational efficiency.
- Optimized backend performance, database queries, and application stability across MySQL, SQL Server, and PostgreSQL environments.
- Supported CI/CD pipelines, deployments, and release management, ensuring smooth production rollouts.
- Collaborated with stakeholders and led junior developers to deliver scalable, secure, and reliable backend solutions using CodeIgniter, Laravel, Vue.js, and JavaScript technologies.

Serial Experiments Emerging Technologies LLP

Designation: Junior Software Developer

Years of Experience: 1.5 years

Skills used: vue.js, Laravel, MySQL and git

- Worked on a customized CRM (Miles Education), developing and maintaining RESTful APIs and backend business logic to support core application workflows.
- Implemented integrations such as call bots and schedulers/background jobs to automate customer interactions and periodic backend processes.
- Supported end-to-end backend development activities including requirement understanding, implementation, testing, deployment, and production support.
- Collaborated with senior developers and cross-functional teams, contributing to code reviews, debugging, performance tuning, and CI/CD-based releases while building strong backend and database fundamentals.

EDUCATION

SEPTEMBER – 2022

B. TECH: SIR C R REDDY COLLEGE OF ENGINEERING [ECE]

Percentage: 70%

MARCH – 2018

DIPLOMA: ESC GOVT.POLYTECHNIC, NANDYAL [ECE]

Percentage: 75%

APRIL – 2015

TENTH: SWATHI MODEL SCHOOL

GPA: 9.2

Add-ons

Completed an internship at Locuselite, working on the internal application called Explore using HTML, CSS, PHP, and JavaScript. I completed Laravel 8 from scratch via Laracasts and participated in coding challenges on Mount Blue and HackerRank to enhance problem-solving and algorithm skills.
