

SIVACHIDAMBARAM U

To drive impactful outcomes as a professional with expertise in **Project Management, Technical / Solution Architecture and Software Development**, to design creative solutions in the **IT industry**.

Mobile: +91-8248600820

E-mail: u.sivachidambaram@gmail.com

LinkedIn: <https://linkedin.com/in/sivachid>

PROFILE SUMMARY

- A competent professional offering **15+ years** of experience in **Software Development, Project Management, Client / Stakeholder Management, and Team Management** with expertise in **translating complex business requirements** into effective software solutions.
- Expertise in **managing complete SDLC** including design, development, enhancements, customization, requirement gathering & analysis, testing, coding, customer support and training.
- Rich experience in **supporting & facilitating the development & maintenance of multiple applications**; actively contributed in various phases of development by **coordinating with technical teams right from requirement analysis, solution architecture, testing, implementation, deployment and production support**.
- Project Execution Expert**, led the project execution and management in tune with the core business objectives; reviewed functional requirements and translated the same into technical specifications.
- Solutions Expert** with skills in designing & implementing solutions that remedy core business issues and position the organization to reach the **next level of profitability**
- Led large-scale business **application architecture & design efforts**; established application architecture for various business functional areas; resolved integration & interface issues between various systems
- An effective leader with **capabilities in motivating teams** and maintaining deliverables as per the defined guidelines along with elevating service standards for operational excellence.

CORE COMPETENCIES

- | | | |
|-----------------------------------|----------------------------------|------------------------------------|
| • Strategic Planning & Leadership | • Project Execution & Management | • Requirement Gathering & Analysis |
| • Software Development Lifecycle | • Technical / Solution Architect | • Software Performance Tuning |
| • Cross-Functional Coordination | • Agile Methodology | • Client / Stakeholder Management |

KEY DELIVERABLES

- Streamlined delivery operations by refining sprint workflow and defining clear feature objectives, resulting in a 25% improvement in delivery timelines.
- Directed a cross-functional team that surpassed SLA benchmarks by 15%, consistently delivering high-performance outcomes across diverse projects.
- Mitigated project risks by 20% through proactive planning, stakeholder alignment, and collaborative issue resolution strategies.
- Elevated code quality by enforcing structured peer reviews and incorporating developer feedback, which reduced bugs by 20% and boosted system reliability.

WORK EXPERIENCE

Since May'22: Neurealm (previous GAVS Technologies Pvt. Ltd.), Chennai as Lead Engineer

Key Result Areas:

- Architecting, developing, debugging & maintaining high-availability, high-throughput applications to ensure performance and reliability.
- Leveraging deep expertise in relational databases by optimizing complex queries and implementing effective indexing strategies.
- Driving end-to-end feature ownership by prototyping, designing, coding, unit testing, and resolving technical issues effectively.
- Liaising seamlessly with globally distributed teams by showcasing consistency, adaptability, and strong communication skills.
- Following established coding standards and best practices while incorporating comprehensive unit testing to ensure code quality.
- Meeting SLA targets consistently and engaging in PI planning sessions to define and align feature delivery milestones.
- Adopting and enforcing modern software engineering practices to improve operational efficiency, minimize risk, and reduce business disruptions.

- Reporting project progress and delivery timelines regularly to leadership and key stakeholders, ensuring transparency and alignment across teams.
- Implementing best practices to enhance system performance, code maintainability, and technical debt reduction.
- Actively participating in architecture design discussions, contributing strategic insights to drive efficient, scalable solutions aligned with business goals.
- Ensuring the delivery of required architecture and designs as per defined SLAs and project plans.
- Implementing methodologies involving the development of comprehensive test plans, tracking activities, and assuring overall quality, including functionality, performance, and scalability.

Project Managed:

Title: Remitra-Premier Inc. (USA) | **Duration:** May 2022 – Present | **Domain:** Healthcare

Responsibilities:

- Currently leading development and enhancement initiatives for Remitra, a complex healthcare financial platform built on Core PHP and React JS, while integrating with a diverse stack that includes IIB (for web services), MySQL, DB2, MongoDB, Docker, and Kubernetes.
- Driving application stability and performance by owning sprint outcomes for key features and epics, and adhering to industry best practices to deliver scalable, high-quality code.
- Implementing critical features such as:
 - Automated invoice rule application to streamline payment processing.
 - In-page PayNow/PayAll options within the Customer Portal to improve user experience and payment efficiency.
 - Cash Flow Optimization functionality allowing customers to strategically delay invoice payments to suppliers.
- Collaborating closely with cross-functional teams to ensure seamless integration, maintain high system availability, and continuously refining the codebase for optimal performance.

Jun’16-Apr’22: Mobius Knowledge Services Pvt. Ltd., Chennai as Tech Lead

Key Result Areas:

- Supervised sprint execution and ensured successful delivery of iteration outcomes aligned with project objectives.
- Facilitated project design sessions, offering architectural insights and mentored team members through solution planning.
- Resolved critical technical challenges by promptly removing impediments and enabling progress.
- Analyzed and proactively addressed project risks in coordination with the Project Manager to ensure timely mitigation.
- Authored high-performance, scalable code that established coding best practices for the development team.
- Allocated tasks effectively based on team capabilities and balanced workloads to boost productivity and collaboration.

Jul’13-May’16: Team Mango Media Pvt. Ltd., Chennai as Senior Developer

Key Result Areas:

- Engineered and deployed applications that supported day-to-day operational workflow.
- Delivered creative resolutions to intricate business problems by aligning technology with strategic needs.
- Interpreted client requirements and converted them into robust technical solutions.
- Enhanced system performance and scaled infrastructure by introducing efficient and optimized solutions.

PREVIOUS EXPERIENCE

Jul’11-Jun’13: Pixelbyte Lab Pvt. Ltd., Chennai as PHP Programmer

Jun’10-Jun’11: Spotlight Media Pvt. Ltd., Chennai as PHP Programmer

Oct’08-May’10: Prar InfoTech Pvt. Ltd., Chennai as Software Engineer

TECHNICAL SKILLS

- | | | | | | | | |
|--------|-----------|-------------|--------------|----------|--------------|----------------|---------------|
| • PHP | • Laravel | • MySQL | • JavaScript | • jQuery | • React JS | • Magento | • MongoDB |
| • HTML | • CSS | • Bootstrap | • Docker | • Git | • Kubernetes | • Azure DevOps | • Git Copilot |

EDUCATION

- **B.Sc. in Computer Science** from SRM Arts & Science College, Chennai, University of Madras in 2007
