PROFESSIONAL SUMMARY

9+ years Full Stack Developer specializing in PHP/Laravel, Angular, JavaScript, and MySQL. Builds secure, scalable web platforms for public-sector and SaaS domains, integrating REST APIs and CI/CD with Docker and Git. Known for end-to-end ownership, cross-team collaboration, and performance-focused delivery.

TECHNICAL SKILLS

Programming Languages: PHP, Core PHP, JavaScript

Frameworks: Laravel, CodeIgniter, CakePHP, Angular

Frontend: HTML, CSS

Backend: REST APIs

Tools: Composer, Docker, Git, Git Bash, SourceTree, GitHub, GitLab, Bitbucket, GitHub Actions

Databases: MySQL, PostgreSQL, PGSQL, SQL Server, Redis, NoSQL

Platforms: Windows, Linux

Others: Quick learner, open to adopting new technologies, strong problem solving skills

PROFESSIONAL EXPERIENCE (9+ YEARS)

Consultant | Deloitte India | Kolkata | Mar 2023 - Present

- Led **end-to-end feature** delivery across full-stack Laravel (PHP, MySQL, HTML, CSS, JavaScript) and Angular frontend, owning requirements analysis, development, testing, and release in collaboration with backend teams
- Orchestrated **API design** and REST integrations, ensuring secure data exchange and consistent versioning.
- Implemented **CI/CD automation** with Docker and Git, improving deployment speed by 40%.
- Optimized performance through **query tuning** and caching, reducing response times by 30%.
- Collaborated with product and QA to raise **quality and stability**, cutting defects by 30% via reviews and unit tests.
- Designed **scalable architecture** to enhance reliability, supporting 99.5% uptime as systems grew.

Technologies Used: Angular, Laravel, MySQL, Docker, Git, REST APIs

Software Developer | ZNET Technologies Pvt. Ltd. | Jaipur | Mar 2022 - Feb 2023

- Delivered **full-stack enhancements** for subscription billing and provisioning platforms.
- Integrated external services and **payment workflows**, strengthening transaction reliability.
- Refactored backend modules and improved **database design**, boosting query performance by 30%.
- Established **release processes** with Git, reducing manual deployment effort by 40%.
- Partnered with support and product to streamline **user journeys**, increasing conversion by 12%.

Technologies Used: CakePHP, PHP, MySQL, JavaScript, jQuery, HTML, Git

Assistant Programmer | Jharkhand Agency for Promotion of Information Technology (JAPIT) | Ranchi | Feb 2018 - Feb 2022

- Built citizen-facing **web applications** for governance services with robust role-based access.
- Engineered **MySQL schemas**, views, and stored logic, improving data integrity and performance by 35%.
- Implemented **RESTful APIs** and UI components, enabling seamless data capture across blocks and districts.
- Strengthened **testing and code reviews**, lowering production issues by 40%.
- Coordinated with **stakeholders** to **prioritize enhancements**, accelerating delivery by 25%.

Technologies Used: CorePHP, PHP, MySQL, HTML, JavaScript, jQuery, REST APIs

Programmer | Sparrow Softech Pvt. Ltd. | Ranchi | Jun 2016 - Jan 2018

- Maintained and enhanced **HRMS** and municipal portals with secure authentication and roles.
- Developed reusable **PHP components** and optimized SQL queries, reducing page load times by 30%.
- Delivered **UI updates** and **backend changes** per requirements, improving usability by 20%.

- Supported **release management** and unit testing to raise stability and reduce regressions by 25%.

Technologies Used: PHP, WordPress, MySQL, HTML, SQL Server, JavaScript

PROJECTS

e-Vidya Vahini 2.0 Staging | Deloitte India

<http://103.107.59.81/>

Modernized and advanced version of the existing e-Vidya Vahini platform, rebuilt using a new technology stack(.net and Angular) to improve scalability, performance, and long-term maintainability.

- Developed Angular frontend modules including **student report card generation** and **student entitlement management**, reducing manual workflows..
- Delivered the **Assign Documents** module and managed change requests end-to-end, collaborating with backend and QA teams.

e-Vidya Vahini | Deloitte India

<https://evidyavahini.jharkhand.gov.in/>

Unified ICT platform with mobile app and web portal, enabling data capture, analytics, and MIS across education services.

- Implement new modules like Teacher Attendance, Student Entitlement etc.
- Involved in **design, Development, and implementation** of the assigned documents module. Handled change requests independently, studying and analyzing the requests and integrating the same in the application..

RackNap Website | ZNET Technologies Pvt. Ltd.

<https://www.racknap.com/>

Subscription billing and provisioning automation platform for recurring-revenue businesses.

- Implemented **Stripe Payment Gateway** for secure transactions, increasing successful payments.
- Enhanced **billing and provisioning** flows, reducing **support tickets through UI and workflow improvements**.

Public Distribution System (PDS) Jharkhand | Jharkhand Agency for Promotion of Information Technology (JAPIT)

<https://aahar.jharkhand.gov.in/>

Citizen portal to manage appeals, complaints, status tracking, and order copy downloads.

- Developed the online **kerosene oil distribution** module, cutting processing time.
- Built **views, classes, functions, and MySQL tables**; improved **query performance** and resolved issues proactively.

Online Appeal Information System, Jharkhand State Information Commission (JSIC) | Jharkhand Agency for Promotion of Information Technology (JAPIT)

<https://onlinejsic.jharkhand.gov.in/>

Web portal for citizens to file second appeals, modify applications, and track complaints and orders.

- Developed **UI layouts** and backend logic, reducing manual processing steps.
- Created **database objects and unit tests**; decreased bugs through **structured reviews** and fixes.

Human Resource Management System | Sparrow Softech Pvt. Ltd.

<https://sparrowsoftech.com/>

HRMS with employee records, attendance, payslips, and asset management.

- Maintained application and delivered the **billing module**, automating payroll/billing tasks.
- Executed **UI and backend changes** per requests, increasing **usability**.

Chhattisgarh Municipal | Sparrow Softech Pvt. Ltd.

<https://www.cgsuda.com/>

Portal for online property tax payments, self-assessment, search, demand generation, and report downloads.

- Built **self-assessment** and tax workflows; grew online adoption through intuitive UI and validation.
- Designed **SQL Server queries and tables**; improved **search responsiveness** across property datasets.

EDUCATION

Bachelor of Engineering (Computer Science & Engineering) | Jun 2016

Rajiv Gandhi Proudyogiki Vishwavidyalaya | *Bhopal, Madhya Pradesh*

12th | May 2012

JAC Board | *Ranchi, Jharkhand*

10th | May 2010

JAC Board | *Ranchi, Jharkhand*
