

SREEJA J S

Kochi, Kerala 682020

sreejajs11@gmail.com

+91-9746053562

Results-Driven, self-motivated Senior Software Engineer with over 12 years of experience in designing and developing scalable web applications and e-commerce platforms. Skilled in Laravel, PHP, and RESTful API integration with proven expertise in payment gateway implementation and backend optimization.

Willing to relocate to: Thiruvananthapuram, Kerala - Kochi, Kerala - Bengaluru, Karnataka

Work Experience

Sr Software Engineer

Heidelsoft Technologies Pvt. Ltd.

January 2021 to January 2026

Worked with Bierothek, a German-based company, to develop and maintain a large-scale Laravel-based e-commerce platform. Integrated multiple payment gateways (PayPal, Stripe, Klarna, Mollie) to ensure secure and seamless transactions. Collaborated with frontend teams to optimise user experience (UX) and page performance. Contributed to scalable and maintainable e-commerce solutions, aligning with business requirements.

Sr Software Engineer

Abzer Technology Solutions

January 2019 to January 2021

Developed and customized e-commerce platforms including Magento 2, OpenCart, and WooCommerce. Built custom plugins for Magento 2 to enhance store functionality and performance. Integrated payment gateways such as MasterCard and CyberSource, ensuring secure and seamless transactions. Collaborated with cross-functional teams to deliver scalable and efficient solutions for client e-commerce systems.

Sr Software Engineer

Phases Innovations

January 2017 to January 2019

Worked for 1 year and 14 months with a Denmark-based company (India office). Developed projects using Laravel framework for backend and Vue.js for frontend. Gained experience in customizing and managing their CMS, Podio. Contributed to building scalable, maintainable, and efficient web applications. Collaborated on end-to-end project development, including design, implementation, and testing.

Sr Software Engineer

SBL Private Limited

January 2016 to January 2017

Worked for 9 months on an internal HRMS project. Focused on backend and frontend development using the Yii2 framework. Contributed to building and maintaining modules specific to HR processes. Assisted in enhancing system functionality and improving user experience. Involved in testing, debugging, and ensuring code quality.

Sr Software Engineer

Techversant Infotech

January 2015 to January 2016

Worked for 1 year and 7 months primarily with the Moodle CMS. Gained experience in custom module and plugin development within Moodle. Contributed to enhancing the functionality of Moodle by creating tailored solutions. Collaborated on designing and implementing features specific to client requirements. Performed testing and debugging to ensure seamless integration of custom modules.

Web Developer

TKM Infotech

January 2013 to January 2014

Worked primarily on a CMS platform (Moodle), focusing on backend module development. Performed application testing and prepared detailed QA reports to ensure software reliability. Contributed to maintaining and improving system performance and stability.

Web Developer

Portrave Solutions

January 2012 to January 2013

Worked on web-based projects using PHP with framework for both frontend and backend development. Contributed to building interactive and user-friendly interfaces to improve overall usability. Collaborated with team members to ensure high-quality, maintainable, and efficient code delivery.

Junior Web Developer

Caxita Tech Solutions Private Limited

January 2011 to January 2012

Developed and maintained an HRMS tool using PHP with a custom framework. Contributed to both backend and frontend development, ensuring smooth system functionality. Focused on delivering robust, efficient, and scalable solutions tailored to business requirements.
