OBJECTIVE

Enthusiastic and motivated Full Stack Developer. Proficient in both front-end and back-end development and database management. Eager to enhance my skills and contribute to dynamic development teams by solving real-world challenges with scalable solutions.

EDUCATION

Bachelor of Engineering (CSE)

Government Engineering College, Hassan | 2021–2025 | CGPA: 8.39

SKILLS

Programming Languages: Java, PHP.

Web Development: JavaScript, HTML, CSS.

Technologies/Frameworks: Spring Boot, ReactJS, Laravel.

Database: SQL.

EXPERIENCE

Full Stack Developer (Oct 2025 – Present)

JayBlues Technologies, Mysore (On-site)

1. Developing responsive web applications using React.js on the frontend and Laravel on the backend.
2. Creating and maintaining backend modules in Laravel including authentication, CRUD operations, and API routes.
3. Collaborating with designers and backend teams to deliver smooth and scalable full stack features.

PROJECTS

1. **School Management System:** Implemented using **React and Laravel**, implementing CRUD operations and RESTful APIs for efficient student, teacher, and class management.
2. **Karnataka State Education System Analysis using PowerBI:** This Project focused on analysing the education system of Karnataka using the real-time datasets. I collected and visualized the data related to school enrollment, literacy rates and infrastructure facilities across different districts.
3. **Coffee Shop Sales Using Excel:** Analysing Coffee shop sales data using Excel identifying trends peak sales period, and customer preferences.
4. **Book Shop Inventory Management System :** Developed a web based inventory system.

INTERNSHIP

1. **Java Full Stack Development at Jay Blues Technology, Mysore.** Worked On Both Frontend and Backend.
2. **Java Programming with OOPs at Teragon, Hassan (Oct–Nov 2022).** Applied object-oriented principles to create efficient, modular Java applications.
3. **Data Analytics at Honeywell ICT Academy,** learned data processing, visualization, statistical analysis and using tools like PowerBI and Excel.
4. **Generative AI at TechSaksham** gained a strong understanding of generative models.

CERTIFICATIONS & TRAINING

1. **Applied AI & Practical Implementation** - Collaborative program by Edunet Foundation, Microsoft, and SAP.
2. **Foundation course on Generative AI** - Offered by Techsaksham.
3. **Java Programming Certification** – Issued by Teragon EdTech.
4. **Full Stack Development Certification** – Offered by JayBlues.
5. **Data Analytics Certification** – from Honeywell.
