WORK EXPERIENCE

Software Engineer

GIPRA Business Solution, Cochin

Oct 2023 – Present

- Working with a multilevel marketing service provider firm, focusing on backend development and multiservicing tasks.

- Primarily coding in the CodeIgniter framework, with additional contributions in the Laravel framework.
- Developed and maintained scalable solutions to support MLM operations and business processes.

Web Developer

Techsoft Web Solution, Cochin

Apr 2023 – Oct 2023

- Designed and developed dynamic websites with a focus on performance and user experience.
- Developed a hotel booking tool using the CodeIgniter framework, incorporating a user-friendly interface and efficient booking management features.
- Built a custom shopping cart for Alright Supplements, a food supplement website, enabling seamless product browsing and secure checkout.

Sr. Programmer

Navsel Technology, Cochin

Dec 2013 – Mar 2015

- Focused on updating and enhancing existing projects built in the CodeIgniter framework and osCommerce.
- Ensured high code quality and seamless integration of new features.
- Delivered full-stack solutions for client applications, ensuring high code quality and timely delivery.

PHP Programmer

Inofex Info Solutions, Cochin

Dec 2012 – Dec 2013

- Contributed to a study abroad site as part of a collaborative team.
- Developed a shopping cart solution using osCommerce.
- Built a cropping tool with JavaScript for enhanced functionality.
- Ensured high code quality and seamless integration of new features.

Web Developer

Masteroe IT Solutions Pvt. Ltd., Cochin

Dec 2010 – Apr 2012

- Performed daily updates and maintenance for an existing German project built with the CodeIgniter framework.
- Contributed to the Order Management System (Core PHP) for phonelist.fhd.de, which handles order maintenance based on incoming calls to the company. The system maintains call history, order history, and employee comments as part of the documentation process.
- Worked on feature integration and enhancements, including Facebook integration and modular updates.
- Gained additional experience with osCommerce for e-commerce projects.

PHP Programmer

Shrishti Informatics, Cochin

July 2009 – Dec 2010

- Worked on Authentic Fashion in Korea, an OS Commerce project, involving design, development, and optimization of secure, scalable multi-tier web applications.
- Contributed to Financial Pool, a WordPress project focused on building a bidding system for small businesses.
- Developed the Doggy Dinner's Direct website using CodeIgniter, enabling features such as unlimited attribute-supported product management, newsletter management, dynamic feedback form builder, custom CMS, and order-changing functionality before processing.
- Worked on Kookie Kultura, an osCommerce project focused on selling cookies, kitchen accessories, and gift items, including payment gateway integration (PayPal Express Checkout), shipping modules (UPS, USPS), and custom content manager for recipes and store finder.
- Contributed to Nursery Furniture Store, an osCommerce project selling nursery furniture in the UK, involving template integration, module configuration, and SSL implementation for secure transactions.

PHP Programmer

Vyazz Graphics, Kottayam

Oct 2008 – July 2009

- Developed and maintained the website for Sreeja Line of Products, a hospital equipment and furniture provider in Kerala.
