

Saheer KP

FULL-STACK SOFTWARE ENGINEER – PHP + Laravel | Node.js + Express | Vue.js

Malappuram District, Kerala, INDIA

Email: saheerkp43@gmail.com | Phone: +91 9633971643 | LinkedIn: [Saheer-kp](#)

Professional Summary

Full-stack developer with 7 years of experience delivering web applications across healthcare, e-commerce, ride-booking, and legal domains. Proficient in PHP, Laravel, Node.js, Express, and both SQL and NoSQL databases. Skilled in building secure REST APIs with role-based access control, real-time systems using Socket.io and Firebase, and interactive frontends with Vue.js. Experienced in database optimization, query tuning, and indexing for improved application performance. Well-versed in AWS cloud deployment, CI/CD automation, OAuth integration, and ERP synchronization. A collaborative problem-solver who translates business requirements into scalable, maintainable solutions.

Technical Skills

Languages & Frameworks: PHP, Laravel, Node.js, Express, JavaScript(ES6+), TypeScript, Vue.js, Livewire, jQuery, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB, Firebase

Cloud & DevOps: AWS (EC2, S3, SES, RDS), Docker, Git, CI/CD, SSH, Nginx

Operating Systems: Windows, Ubuntu

Tools: VS Code, Postman, FileZilla, XAMPP, WAMP, PgAdmin, MongoDB Atlas, Adminer, Asana, Brave, Google Chrome, Mozilla

AI Exposure: Generative AI (LLMs), Github Copilot, Cursor, Antigravity

Other: MVC, OOP, PHPUnit, Jest, RESTful APIs, Swagger, Json, Integrate third-party APIs and Services, Cron Jobs, OAuth, JWT, NPM, PM2, Ajax, Axios

Experience

Ateam Soft Solutions | Software Engineer

Technopark, Trivandrum, Kerala | Mar 2022 - Present

- Developed full-stack web applications across healthcare, e-commerce, ride-booking, and legal domains using PHP, Laravel, MySQL, Node.js, Express, and MongoDB, implementing RBAC and secure REST APIs.
- Optimized database queries and indexing to improve API response times by 40% for search functionalities handling 10,000+ records, and synced data with external ERP systems (SAP) via API integration.

- Integrated Firebase Cloud Firestore and Realtime Database for real-time messaging, FCM for push notifications with 95% delivery rate, and Node.js with Socket.io for real-time driver discovery, reducing response-matching time by 60%.
- Integrated OAuth authentication (Google, Facebook) using Laravel Socialite, improving user registrations by 50% and reducing sign-up abandonment by 25%.
- Deployed and managed applications on AWS (EC2, S3, RDS) with 99.5% uptime, utilized Git for version control, implemented CI/CD pipelines reducing deployment time by 70%, and used SSH for secure server management.
- Collaborated with cross-functional teams to translate business requirements into technical specifications, provided technical support resolving 95% of issues on time, and participated in client discussions that secured project extensions.

Excelledia Ventures | Software Engineer

GEO Infopark, Ernakulam, Kerala | Mar 2020 - Feb 2022

- Developed and maintained scalable enterprise management system modules serving 100+ active users using PHP, Laravel, and MySQL
- Collaborated within a cross-functional team to analyze requirements and deliver high-quality software solutions on schedule, achieving 98% on-time delivery.
- Engineered RESTful APIs to facilitate efficient data exchange and seamless integration between backend services and frontend interfaces, reducing data latency by 40%.
- Diagnosed and resolved technical issues across development environments, providing reliable support to maintain 99% uptime and ensure system stability and performance.
- Used Git for version control, managing branches, and maintaining codebase integrity across development and production environments.

Datastone Solutions LLP | Junior Software Developer

Kottakkal, Malappuram, Kerala | Nov 2018 - Feb 2020

- Developed full-stack web applications from scratch using PHP, Laravel, and MySQL, taking ownership from concept to deployment and delivering each within projected timelines.
- Built custom CMS websites using Core PHP, delivering tailored content management solutions that reduced content update time by 50% for non-technical administrators.
- Designed and built RESTful APIs enabling smooth data flow and integration between backend services and frontend applications, reducing integration time by 30%.

Education & Certifications

Bachelor of Computer Application

University of Calicut | 2014 - 2017

Certification in PHP and Android

Riss Technologies, Calicut | Issued May 2018
