PROFESSIONAL SUMMARY

Senior Software Developer with **7.5+ years of experience** architecting and scaling FinTech and Accounting ERP solutions. Specialized in the Laravel ecosystem, Python/Django, and high-performance RESTful API design. Proven track record of transforming complex financial requirements (GST, TDS, Tally TDL) into secure, scalable platforms supporting high-concurrency environments.

CORE COMPETENCIES

- **Backend:** Laravel (Expert), Codeigniter, Python, Django, Node.js, PHP, Express.js, Microservices
- **Frontend:** React.js, JavaScript (ES6+), jQuery, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Database & DevOps:** MySQL (Optimization), AWS (EC2, S3), Docker, Linux (Ubuntu), Git
- **FinTech Domain:** Tally ERP Integration (TDL), Payment Gateways (Razorpay), Ledger Workflows, GST/TDS Automation

PROFESSIONAL EXPERIENCE

Avantai Fintech Pvt Ltd | Senior Software Developer / IRP | Chennai, Tamilnadu

Jan 2023 – Present

- Lead developer for **WegoFin**, a business management platform; improved transaction processing speed by **35%** through query optimization.
- Engineered **AcquireX**, a risk-intelligence platform processing **50k+ data points daily** to generate real-time financial risk scores.
- Designed and secured RESTful APIs using Laravel Sanctum, supporting a mobile user base of **10,000+ active users**.

- Automated taxation workflows (GST/TDS) and generated automated journal entries, reducing manual accounting errors for enterprise clients by **25%**.

Kawika Technologies | Laravel Developer | Trivandrum

Feb 2022 – Jan 2023

- Spearheaded development of **5+ high-traffic fashion e-commerce platforms** using Laravel and jQuery.
- Implemented custom CMS modules enabling non-technical staff to manage **5,000+ SKUs** efficiently.

Glaubetech Invention Pvt Ltd | Laravel Developer | Kerala

Jul 2019 – Feb 2021

- Developed **Bridge LCS**, an ERP for logistics, automating cross-border payment reconciliations for India and Saudi Arabia.
- Integrated Razorpay and multi-currency gateways, resulting in a **20% increase** in payment processing efficiency.
- Optimized MySQL schema for large-scale inventory modules, reducing page load times by **1.2 seconds**.

Srishty Innovative Computer System | PHP Web Developer | Trivandrum

Oct 2018 – Jul 2019

- Maintained legacy PHP applications and migrated core modules to modern frameworks, ensuring **99.9% uptime**.

KEY PROJECTS & OPEN SOURCE

Pine Workbench | *Developer Tool / Open Source /github*

- A browser-based programming environment demonstrating internal language mechanics using a custom lexer, parser, and interpreter built in JavaScript.
- Features real-time code execution, tokenization, and AST visualization.

Journal Automate | *FinTech Simulator / Open Source /github*

- Built an Accounting Journal Entry Simulator using JavaScript and OOP principles to dynamically generate double-entry journals.
- Handles GST (CGST/SGST/IGST), TDS adjustments, batch processing, and real-time ledger visualization.

TDL Export | *Data Bridge / Tally Integration*

- Built a TCP-based data bridge using TDL to sync offline Tally data with cloud applications.

Feconomy | *Budgeting Tool / Finance App/ Personal Use*

- Developed a personal budgeting tool with automated expense , bincome categorization logic.
- <https://feconomy.saikumarsadasivan.in/>

Sai Bot | *Automation Open Source /github*

- Created an open-source JavaScript package for automated support responses.

EDUCATION**Sivaji CET (Anna University)** | Chennai

Bachelor of Engineering (Electronics & Communication) | 2013 – 2017
