

SENTHIL PANDIYAN

Web Developer

About me

Accomplished Senior Software Engineer and Team Lead with over 6 years of experience in PHP-based web application development, backend architecture, API integrations, and team leadership. Proven expertise in building scalable, high-performance applications using Laravel and related technologies. Strong background in troubleshooting complex production issues, optimizing system performance, and delivering business-critical solutions. Experienced in leading development teams, mentoring engineers, conducting code reviews, and driving projects from requirements gathering through deployment. Recognized for analytical problem-solving, technical excellence, and the ability to align technology solutions with business objectives.
