PROFILE

Full-stack Developer with 2.5 years of professional experience building and maintaining production-grade web applications. Strong expertise in PHP and Laravel (MVC architecture), MySQL, REST API integration, and Firebase integrations. Experienced in optimizing system performance, handling real-world edge cases, and delivering scalable, maintainable solutions used by thousands of users.

PROFESSIONAL EXPERIENCE

Software developer, Glinjos Innovations Software Solutions LLP, Kannur	12/2023 – Present Kannur, Kerala, India
- Developed multiple web-based business applications using Laravel and MySQL, including travel platforms, POS systems, landing sites, and multi-module service management systems with role-based access and admin dashboards. - Implemented complex SQL queries and joins using Laravel Query Builder and Eloquent for reporting and analytics modules. - Led Flutter app development for HRMS and education with real-time features and scalable architectures. - Integrated REST APIs and Firebase services for secure, efficient, and seamless user experiences. - Designed subscription workflows and engagement tools that enhanced user retention and operational efficiency. - Developed backend services with PHP and MYSQL, ensuring reliable data handling. - Contributed to optimizing code quality and team collaboration. - Worked on various outsourced projects, customizing existing codebases to meet client requirements while ensuring optimal performance and maintainability.	

KEY ACHIEVEMENTS

- Delivered and maintained production apps published on Play Store.
- Improved application performance by optimizing database queries and API response times.
- Led end-to-end development of features from requirement analysis to production deployment.

TECHNICAL SKILLS

Web application Core: PHP, Laravel. Patterns: MVC Architecture.	Mobile Core: Dart, Flutter.	Backend & Integrations services: Firebase(auth, FCM), REST APIs, Google Maps. database: MySQL.	Testing and Tooling QA: Unit Testing, API Testing and Manual Testing. DEVOps: Git, GitHub.
