PROFILE SUMMARY

PHP Developer with 8+ years of experience in designing and developing scalable web applications using PHP, CodeIgniter, Laravel, REST APIs, and MySQL. Strong expertise in backend architecture, API integrations, and database performance optimization, with hands-on experience in debugging and maintaining high-traffic production systems. Proven track record of delivering reliable solutions, migrating legacy systems (CI3 to CI4), integrating third-party platforms, and efficiently managing multiple projects in fast-paced environments

TECHNICAL SKILLS

Backend

PHP, CodeIgniter, Zend Framework, Laravel, REST APIs, Third-party API integrations, Payment Gateway Integration

Frontend

HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap

Database

MySQL, MS SQL

SOFT SKILLS

- Demonstrates strong problem-solving skills with attention to detail.
- Quick learner with the ability to adapt to new technologies and environments.
- Highly adaptable and flexible in handling changing requirements.
- Capable of managing multiple tasks and projects simultaneously while meeting deadlines.
- Team-oriented with effective collaboration and communication skills.
- Dedicated and punctual, with a strong commitment to delivering quality work.

TOOLS & TECHNOLOGIES

- Strong understanding of OOP concepts
- Version control: Git
- Experience with project management tools (Jira, Trello)
- Experience with SSH server
- Basic knowledge of Azure
- Token-based authentication (JWT, OAuth)
- Experienced with API testing tools (Postman)

PROFESSIONAL EXPERIENCE

PHP Developer

03/2021 | Ernakulam, India

Techmaven IT Solutions Pvt Ltd

- Developed and maintained scalable **backend modules** using **PHP and CodeIgniter**.
- Designed, built, and **integrated RESTful APIs** for internal systems and **third-party services** (Justgiving, Engaging network etc.).
- **Migrated CI3 to CI4** including routing, controllers, models, and helpers.
- Optimized SQL queries and improved database performance for high-volume data processing.
- Implemented client-side validations using **jQuery Validation** to enhance user experience.
- Debugged and resolved production issues to ensure system reliability and stability.
- Collaborated with cross-functional teams (frontend, QA, integration) to deliver robust features.

Software Developer (PHP)

04/2018 – 04/2020 | Kochi, India

Softloom IT Solutions

- Developed web applications using the **CodeIgniter framework**, following MVC architecture.
- Built and customized a **WordPress-based magazine website** with responsive design.
- Designed and developed applications including a **printer shop management system** and a **hospital management system**.

- Trained and mentored students in web development technologies including **PHP, MySQL, HTML, CSS, JavaScript, and CodeIgniter**, improving their practical coding skills.

Software Developer (PHP)

07/2016 – 10/2017 | Kochi, India

ZH Healthcare Solutions

- Worked with Zend Framework and CodeIgniter to develop and maintain healthcare applications.
- Contributed to the development of Electronic Health Record (EHR) system modules.
- Customized application features and enhanced overall system performance.

KEY PROJECTS

PCUK Messagebroker

The system was built to handle supporter registrations, fundraising campaigns, and donation data at scale. I integrated third-party platforms such as JustGiving, Enthuse, and Engaging Networks to enable seamless data synchronization. I designed and implemented RESTful APIs for accurate and efficient data exchange across systems. I also processed data from internal applications including DAREN, RiskChecker, and the Registration Platform, ensuring consistency and reliability. Additionally, I migrated legacy applications from CodeIgniter 3 to CodeIgniter 4, improving maintainability, architecture, and overall system performance.

Technologies: CodeIgniter, REST API, MySQL, JavaScript, jQuery

DAREN

Nurses Support Platform

The platform was developed to assist nurses in delivering guidance and resources to individuals affected by prostate cancer. I designed and developed backend modules to support core functionalities and implemented modules for managing educational content and support resources. I also built APIs to integrate with the Message Broker system, enabling reliable data exchange. Additionally, I contributed to migrating the application from CodeIgniter 3 to CodeIgniter 4, enhancing maintainability and performance.

Technologies: PHP, CodeIgniter, MySQL, JavaScript, jQuery

Registration Platform

The system supports dynamic event registrations for fundraising campaigns. I maintained and enhanced backend modules for dynamic form creation and management. I identified and resolved bugs to improve system stability and performance, and assisted in integrating and debugging third-party APIs. I also contributed to migrating the application from CodeIgniter 3 to CodeIgniter 4, improving code structure and scalability.

Technologies: PHP, CodeIgniter, MySQL, JavaScript, jQuery

RiskChecker

The application is an online risk assessment tool used to evaluate prostate cancer risk based on user input. I developed APIs to send assessment results to the Message Broker system and maintained existing modules to improve performance and reliability. I ensured accurate data processing and seamless integration with other systems.

Technologies: PHP, CodeIgniter, MySQL, JavaScript, jQuery

Reach Boats

Digital Platform for Boating Community & Crew Recruitment

Reach Boats is a technology-driven platform that connects boating professionals, crew members, and enthusiasts through community engagement and recruitment features. I contributed to backend development by designing and integrating RESTful APIs and managing CRM functionalities for the platform. My work improved data flow between the React frontend and backend systems, enhancing overall performance, reliability, and system efficiency.

Technologies: Laravel 10, MySQL, React.

EDUCATION

B.Tech – Computer Science and Engineering

2015 | Edathala, India

KMEA Engineering College

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
