Key Projects

AI-Based Systems

- AI Emotional Analyzer Chat System – Detects user emotions and responds intelligently.
- AI Health Analyzer – Predicts health risks using AI inputs.
- AI Expense Tracker – Tracks and analyzes spending patterns.
- AI Pastor Chat System – AI assistant for spiritual guidance.
- Ayurvedic Question Generator – Generates syllabus-based questions.

Business Applications (Laravel / CodeIgniter)

- Hospital Management System – Patient, billing, and appointment modules.
- Inventory Management System – Stock tracking and reporting.
- Construction Management System – Project and material tracking.
- Clinical / Dental Management System – Clinic operations automation.
- Hotel Management System – Booking and customer management.
- CRM Applications – Lead and customer lifecycle management.
- Tuition Management System – Student and fee tracking.
- Task Time Management System – Productivity tracking tool.
- Immigration Management System – Visa and documentation workflow.
- Survey Management System – Data collection and reporting system.
- Courier Management System – Shipment tracking and logistics.

Websites / E-commerce / CMS

- Online Grocery Supermarket – WooCommerce-based e-commerce platform.
- School Website – Informational CMS-based site.
- Event Management Website – Booking and event showcase.
- Construction Company Website – Portfolio and service platform.
- Tourist Hotel Website – Booking and listing system.
- Hotel Booking System – Next.js frontend with Laravel backend APIs.

Education

- **Dhanalakshmi Srinivasan College of Engineering** 2012 – 2016
B.E Computer Science (76%)

Certifications

- Full Stack Development (Pursuing)
- Tally ERP9
- Multimedia Animation (C-DIT)
- DWPHP (NIIT)

Languages

- English, Malayalam, Tamil
