Puthenpurakkal house, Painkulam PO, Thrissur – 679531, Kerala

SUMMARY

Full Stack Developer with 6+ years of experience building scalable web applications and RESTful APIs using PHP (Laravel). Specialized in Elasticsearch, large-scale data processing, and performance optimization. Experienced in designing backend architectures, integrating third-party services, and developing real-time systems using Node.js and WebSockets (Twilio). Proven ability to lead projects, manage client interactions, and deliver scalable solutions aligned with business goals.

SKILLS

Backend:

- PHP, Laravel
- REST API Design & Integration
- Real-time Systems (WebSockets)

Search & Data:

- Elasticsearch (v7+), Kibana
- MySQL, MSSQL, MongoDB

Frontend:

- AngularJS, JavaScript, jQuery
- HTML5, CSS3, Bootstrap
- Flexbox, CSS Grid, Responsive Design

Cloud & Tools:

- AWS (SES, S3), Firebase
- Git, Linux Server Management

Other:

- Third-party integrations (Twilio, Google Maps, Payment Gateways)

EXPERIENCE

05/2021 – Present **Senior Web Developer**, CNC DATA LTD | Ernakulam, Kerala

- Developed a Laravel-based Datamart platform handling large-scale corporate datasets with Elasticsearch-powered search and filtering.
- Designed and implemented data import/export pipelines and optimized performance for high-volume data processing.
- Built an automated calling system using Node.js (WebSockets), Twilio, and OpenAI for data collection and reporting.
- Led client discussions, gathered requirements, and translated business needs into scalable technical solutions.
- Collaborated with cross-functional teams to deliver scalable and high-performance solutions.
- Currently developing a Medicos PWA, deployed across Android and iOS platforms.

09/2020 – 03/2021 **Web Developer**, Pinetech ITS | InfoPark (Koratty), Kerala

- Implemented unit testing for a PrestaShop-based project (Pomelo), achieving 95%+ code coverage.

02/2020 – 05/2021 **Full Stack Developer**, CodeGreen Technologies LLP | Ernakulam, Kerala

- Developed REST APIs for mobile applications and built AngularJS-based admin panels.
- Assisted in planning, estimation, and task coordination within the development team.

09/2019 – 02/2020 **Full Stack Developer Trainee**, Sweans Technologies | Calicut, Kerala

- Trained in PHP and WordPress development and built custom WordPress themes.
- Collaborated with development and design teams on project implementation.

EDUCATION

06-2016 - 08/2019 **MCA**, Nehru College of Engineering & Research Centre | Thrissur, Kerala

06/2012 - 05/2015 **BCA**, Aquinas Institute of Management | Ernakulam, Kerala

06/2009- 05/2012 **Higher Secondary**, St. Pauls Public School, Fort Kochi | Ernakulam, Kerala

PROJECTS

HireMedicoz (Healthcare PWA Platform)

Developed a Laravel-based PWA enabling employers to post jobs and hire medicos, deployed across Android and iOS with push notifications and payment gateway integration.

DataConnect

Built a data verification system for Datamart with automated calling using Node.js (WebSockets), Twilio, and OpenAI to collect and process data into structured reports.

Datamart

Developed a global corporate data platform with Elasticsearch-powered search, data export functionality, and payment/coupon modules, optimized for large-scale datasets.

GERP POS Application

Developed a Laravel and AngularJS-based POS system for gold sales with advanced accounting and ZATCA-compliant invoicing, designed as a multi-tenant SaaS platform.

Inspection App

Developed Laravel REST APIs for an Android-based fabric inspection system used in clothing factories in China, collaborating with clients and mobile teams.

Secondspace

Built an OLX-style marketplace for second-hand cars and spare parts, developing REST APIs, website, and admin panel. [🔗](#)

Chicking App

Developed REST APIs to support data management for mobile applications (Android & iOS).
