## PROFESSIONAL SUMMARY

Results-driven Senior PHP Developer with 8+ years of experience delivering robust backend systems, CRM platforms, REST APIs, and e-commerce solutions across short-term rental, fintech, medical services, and digital marketing sectors. Currently at Frank Porter (Dubai), architecting a bespoke property management CRM handling 1,000+ properties and 500+ clients. Expert in PHP, Laravel, Node.js, and modern database design with a strong track record of reducing manual effort, improving system reliability, and delivering projects on schedule. Skilled in Agile/Scrum, payment gateway integration, OKTA SSO, webhook implementations, Docker, CI/CD, and cross-functional team collaboration.

## TECHNICAL SKILLS

**Languages & Frameworks:** PHP (Core), Laravel, CodeIgniter, Yii2, Laminas, Node.js, Prisma, React.js, Flutter, Dart

**CMS & E-commerce:** WordPress, Magento, OpenCart, Pimcore

**Databases:** MySQL, PostgreSQL, MongoDB, SQLite, Firebase, Redis

**APIs & Integration:** REST API Design, GraphQL, Swagger, Webhooks (Guesty, Airbnb, Avantio), OKTA SSO, Payment Gateways

**DevOps & Cloud:** Docker, Linux/Ubuntu, Nginx, Apache, CI/CD (GitHub Actions, Jenkins), Microsoft Azure, AWS

**Frontend:** HTML5, CSS3, JavaScript, jQuery, Bootstrap

**Tools & Methodologies:** Git, Jira, Asana, Agile/Scrum, Core Java

## PROFESSIONAL EXPERIENCE

**Senior PHP / Web Developer** | **Frank Porter** | Dubai, UAE 07/2024 – Present

- Developed and maintained a bespoke CRM for a short-term rental holiday-homes company managing 1,000+ properties and 500+ clients, reducing manual administrative effort by approximately 40%.
- Built an accounting module for automated monthly client income distribution, owner statement generation, and reservation revenue calculations — eliminating manual spreadsheet work.
- Engineered a maintenance module to manage daily task assignment, job tracking, and technician scheduling across the full property portfolio.
- Implemented a quotation generation system enabling rapid cost estimation and approval workflows, significantly cutting turnaround time.
- Integrated webhooks for Guesty, Airbnb, and Avantio — enabling real-time sync of reservations, availability, and pricing, reducing double-booking incidents to near zero.

**Senior Software Engineer** | **Happiest Minds Technologies** | Bangalore, India 08/2022 – 06/2024

- Led end-to-end development of the Abcam medical-service CRM platform for investigating and deriving new medical formulas — delivered on schedule across multiple Agile sprints.
- Architected optimised database structures, improving data retrieval performance and significantly reducing query response times.
- Customised CRM layout management, delivering tailored UI/UX solutions resulting in improved client satisfaction.
- Designed and implemented asset-management and command-execution modules ensuring 99%+ reliability of critical CRM operations.

**PHP Developer** | **Techmaven IT Solutions Pvt. Ltd.** | Kakkannad, India 12/2020 – 07/2022

- Backend CRM Developer and Client Support on Sharestates, a crowdfunding bank platform serving investors and warehouse partners.

- Developed a Monthly Interest Calculating Module with pre-payment and share-distribution logic ensuring 100% calculation accuracy.
- Designed an internal underwriting pipeline system streamlining task flow from initiation to completion.

**PHP Developer** | **Iroid Technologies** | Kakkanad, India 02/2020 – 11/2020

- Key contributor to Fetcht, a multi-category e-commerce platform covering food, medicine, fuels, and more.
- Developed REST APIs for the Fetcht mobile application enabling seamless server-client communication.
- Led architecture design and data-modelling, building scalable and maintainable system components.

**PHP Developer** | **Elytra Media Solutions Pvt. Ltd.** | Kakkanad, India 03/2017 – 01/2020

- Built multiple e-commerce websites with robust transaction and product-management features using OpenCart and Magento.
- Implemented CRM systems with lead tracking, customer communication tools, and data-analysis modules.
- Developed MLM platforms with complex commission calculation and downline-management logic.
