Education

Vidya Vikas Institute of Engineering, Mysuru

Bachelor of Engineering in Computer Science

Sep 2011 – May 2014

Mysuru, Karnataka

Professional Summary

Proactive learner of new technologies, leveraging knowledge to achieve goals successfully. Assertive and flexible professional with the ability to gain a competitive edge in evolving business practices. **11+ years of experience in development**, implementation and upgrade projects with 10 years specifically focused on PHP and CodeIgniter projects. Proficient in **PHP, CodeIgniter, Laravel, jQuery, MySQL, Python**, JavaScript, AJAX, JSON, Jqgrid, HTML, CSS, Gen AI, Wordpress, Shopify, Magento, Symfony Framework, and No-code Tools. Hands-on experience with development tools such as Eclipse, Sublime Text and Notepad++. Skilled in all phases of the software development cycle and **experienced in Agile methodology**. Expertise in importing and exporting data from databases like MySQL and designing architecture based on requirements. Adept at translating complex functional and technical requirements into detailed designs and analyzing vast data stores for insights. Strong analytical skills with flexibility to adapt to new environments. **Completed certification in "Web Development"**.

Core Skills

- Project Management
- Team Leadership
- Agile / Scrum Methodology
- Requirement Analysis
- Client Communication
- Web Application Development
- Database Design
- Code Review
- Risk and Delivery Management

Technical Skills

Languages: PHP, CodeIgniter, Laravel, Symfony Framework, Python, jQuery, HTML, CSS, JavaScript, MySQL, AJAX, JSON, REST APIs, Gen AI, MVC Architecture

Developer Tools: VS Code, Eclipse, Notepad++, Sublime

Technologies/Frameworks: Linux, GitHub, WordPress, Magento, Shopify, Xano, Webflow, Bubble

Experience

Tekzen Systems

Jan 2024 – Present

Team Lead

Mysuru, Karnataka

- Set performance expectations for the team, monitoring progress towards goals and providing constructive feedback as needed.
- Enhanced team productivity by implementing efficient work processes and regularly reviewing performance metrics.
- Managed conflict resolution among team members, fostering a positive and collaborative work environment.

Jayblues Technologies

Oct 2014 – Dec 2023

Project Manager and Team Lead

Mysuru, Karnataka

- Led a team of 5+ developers and designers to deliver high-quality web applications and software solutions.
- Managed end-to-end project lifecycle including requirement analysis, planning, development, testing, and deployment.
- Coordinated with clients and stakeholders to understand business requirements and translate them into technical solutions.
- Assigned tasks, monitored team performance, and ensured timely project delivery.
- Conducted code reviews and technical guidance to improve development quality.
- Managed project timelines, risk assessment, and resource allocation.
- Implemented Agile/Scrum methodologies to improve team productivity and project efficiency.
- Handled client communication, status reporting, and project documentation.

Projects

Jeep E-Shop Platform and Dealer Admin Portal. | *MySQL, PHP Laravel, HTML, CSS, jQuery* **Jan 2024 - Present**

- Developed a responsive, multilingual e-commerce website for Jeep enthusiasts to browse and purchase official merchandise, and explore vehicles by region. The system supports inventory sync, secure checkout, and dealer-based fulfillment.
- Led development of a dealer portal for managing vehicle inventory, pricing rules, and promotional discounts.
- Implemented VIN-level pricing control and integration with an E-commerce vehicle sales platform.
- Managed team coordination, development lifecycle, and deployment.

Chrysler Connect | *MySQL, PHP Laravel, HTML, CSS, jQuery*

Jun 2023 - Dec 2023

- Developed features for vehicle catalog, configuration, and online purchase platform.
- Implemented dealer inventory integration, pricing tools, and vehicle comparison features.
- Managed development lifecycle, team coordination, and production deployment.

Nparrots. | *MySQL, PHP, CodeIgniter, HTML, CSS, jQuery, Agile Methodology*

- Nparrots is an advanced learning management platform designed to support all training needs. It provides e-study materials, learning videos, recorded sessions, live streaming sessions, and animated study content to make learning more interactive.

Swansilk and Deco-Textil. | *MySQL, PHP, CodeIgniter, HTML, CSS, jQuery, Agile Methodology*

- Developed admin dashboard to manage textile product catalogs, images, and website content.
- Implemented secure login, role-based access, and inquiry management modules.
- Managed backend development, database design, and deployment.

Clinic Management System (CMS). | *MySQL, PHP, HTML, CSS, JavaScript, REST APIs, Agile Methodology*

- Designed and implemented a web-based clinic management application to handle patient records, appointments, prescriptions, and billing.
- Directed the development team and oversaw system architecture, implementation, and deployment.
- Designed admin dashboard, EMR management, and reporting modules.

Conference Management System. | *MySQL, PHP, HTML, CSS, JavaScript, REST APIs, Agile*

- Built a web-based conference management platform to handle event registration, session scheduling, and attendee management.
- Implemented speaker management, admin dashboard, and built reporting modules.
- Led development team and managed design, development, and deployment.

Diagnostic and Laboratory Management System. | *MySQL, PHP, HTML, CSS, JavaScript, REST APIs, Laravel*

- Engineered a web-based diagnostic software system for handling patient records, lab tests, reports, billing, and inventory.
- Developed lab reporting, radiology integration, and accounting modules.
- Led development team and managed system design, development, and deployment.

Real Estate Management System. | *MySQL, PHP, HTML, CSS, JavaScript, REST APIs, CodeIgniter*

- Created a real estate platform to manage property projects, bookings, payments, and customer leads.
- Implemented loan tracking, commission management, and RERA compliance modules.
- Led development team and handled system design, development, and deployment.

VisitorPlans – International Travel Insurance Platform. | *MySQL, PHP, HTML, CSS, JavaScript, REST APIs, CodeIgniter*

- Built an online insurance marketplace for comparing and purchasing travel medical insurance plans.
- Implemented quote generation, plan comparison, and online policy purchase modules.
- Led development team and managed system design, integration, and deployment.

Certifications

Web Development Certification with Internship

July 2014 - Oct 2014

Gtrac Institute

- Web Development Internship.
- Assisted in developing dynamic web applications using PHP, MySQL, HTML, CSS, and JavaScript.
- Worked on frontend development, database integration, and bug fixing.
- Gained experience in web development lifecycle and team collaboration.
